## Space Trips Forecast By U.S. Expert

Scientists Look For Rapid Advances If Projects Get Funds

By LEWIS GULICK

WASHINGTON (AP)—Fifty top scientists peered into space today and saw a man on the moon—perhaps by 1969.

Or man may set foot on the moon in 1965 and zoom on to Mars and Venus three years later. That is assuming space projects get very high priority and a billion dollars a year, says Herbert F. York, the Pentagon's research chief.

The views of York and other space experts, including five from other free world countries, were issued in a report by the House Space Committee on "The Next 10 Years in Space."

### Vary Widely On Timing

The report asked, "Where does fantasy end and reality begin?" In their answers to committee questionnaires, the scientists were dead serious, even if they varied widely on the timing of seemingly fantastic events. Their outside time limit on trips to the moon and beyond was generally 20 years.

For other ventures—like development of a possible death ray weapon able to shatter objects from hundreds of miles in space—the time was indefinite.

A number felt that 1969 may be too early to count on having a man on the moon. Among them was Dr. Keith Glennan, head of U.S. civilian space work.

But Glennan figured "there is a good chance that Americans will circle the moon without landing in the next decade. Army missileman Werner von Braun foresees a lunar landing a few years thereafter."

Glennan announced Tuesday night that 110 potential candidates for the first orbit flight around the earth already have been picked.

Some other predictions were enough to stagger the imagination.

### Fantastic Speed Seen

Within 40 years, said Dr. Eugen Sanger, director of the Institute of Jet Propulsion Physics at the Technical University of Stuttgart, Germany, man may be traveling at 670 million miles an hour—almost the speed of light.

But long before the year 2000 rockets will deliver mail in minutes around the earth, forecast the founder of the Italian Rocket Assn. Dr. Glauco Parfel.

Frederick C. Durant III, former head of the International Astronautical Federation, predicted the Soviets will send man into orbit and back several times in 1959 and will otherwise shock Americans by "pressing their current advantageous lead" in spacecraft.

## Youth, 12, Found Hanged Near His California Home

RIALTO, Calif. (AP)—The body of a 12-year-old boy, naked from the waist down, was found hanging from a tree Tuesday night two hours after his parents had reported him missing.

Police Chief Sidney Jones said Harold Hinnies was murdered, possibly by a sex offender.

Harold, only son of Mr. and Mrs. Robert Hinnies, was found hanging from a limb in a clump of holly trees behind the family home. The rest of the youngster's clothing lay about 10 feet away.

Jones said an autopsy would be performed.

## Long Island Residents Need Cowboys For Stray Roundup

WHITE PLAINS, N.Y. (AP)—New York City's neighboring Westchester County could use a few honest-to-gosh cowhands.

Five Black Angus steers have been on the loose since Dec. 20, and folks are beginning to get kind of put out because nobody can catch 'em.

They've been roaming over what seems like half the county giving people quite a fright, nipping up lawns and chewing up prize shrubbery.

Great posses of police and citizens have been after the critters day after day with cars, airplanes, helicopters, horses, walkie-talkies and tranquilized alfalfa hay.

'MOTHER OF YEAR' MEETS IKE—President Eisenhower greets Mrs. David R. Coker of Hartsville, S.C., recently chosen "American Mother of the Year" during a visit this morning at the White House. She called prior to President's news conference. (AP Photos)

## Cuba Holiday Delays Third Crimes Trial

HAVANA (AP)—The third showcase war crimes trial of Batista army officers was postponed today for celebrations of the 106th birthday of Jose Marti, Cuba's George Washington.

A military tribunal, considering an appeal from the first Batistian sentenced to death in the capital, ex-Maj. Jesus Sosa Blanco, also suspended its deliberations, apparently to await new defense evidence.

The second defendant, ex-Capt. Pedro Morejon, also was expected to appeal the death sentence given him early Tuesday.

Officials of Fidel Castro's revolutionary army meanwhile announced arrests at five different places on charges of plotting to overthrow the new regime. Large supplies of weapons and ammunition also were seized, the officials reported.

Details of the alleged plot were not made public, but authorities said reunions of subversive elements had been held in various places. The plotters "presumably" were followers of ex-president Fulgencio Batista, the ousted dictator.

There was some speculation whether the third Havana war crimes trial would start Thursday after the Marti birthday holiday. The defendant is former Lt. Col. Ricardo Luis Grao, 45, charged—

with assassination, homicide, and robbery. The new regime had called the three top war criminals of the estimated 1,500 persons arrested since Batista fled Jan. 1.

## Talmadge Gives School Formula

WASHINGTON (AP)—Sen. Herman E. Talmadge (D-Ga.) says the integration crisis could be resolved by a constitutional amendment giving the states and communities exclusive control of the schools.

Talmadge told the Senate yesterday that seven other Southern Democratic senators were joining him in introducing such an amendment.

## Rain, Milder Weather Due

BALTIMORE (AP)—Five-day forecast: Rain Friday and likely again Monday. Precipitation may total around one-half inch for the period. Warmer Thursday, Thursday night and Friday colder, Saturday and Sunday becoming warmer Monday.

Temperatures for the period will average about 2 to 4 degrees above seasonal normals.

## Dulles Warns Against Reds' 'Peace' Plans

WASHINGTON (AP)—Secretary of State John Foster Dulles said today every Soviet proposal for ending the cold war has been aimed at undercutting free world resistance to communism.

Dulles said there is nothing the United States will not do—including a summit meeting with the Soviets—if it holds a reasonable prospect of promoting peace.

But he warned against any agreement between the two top world powers "which would give many unwary people a sense of relief, and a feeling that our nation need no longer make the efforts and sacrifices that are now called for."

"The Soviet government has, for a long time, been trying to get that result," Dulles said.

"It is, however, my deep conviction that the cold war cannot be ended in any such way and that to take that step would merely make it probable that the cold war would end in victory for international communism."

He spoke in closed session before the House Foreign Affairs Committee. A prepared statement was given to newsmen.

## Two Leftists Arrested For Aid To Burma Reds

RANGOON (AP)—Burma's military government has arrested two leftist members of Parliament on charges of supplying information, ammunition and food to Communist rebels.

They are U Aung Moe and U Sein Maung, both members of the party executive of the Communist-dominated National United Front.

## 'Atlas' Fired At Canaveral In Test Trip

CAPE CANAVERAL, Fla. (AP)—A huge Atlas ICBM has been blasted on a mysterious space flight over the Atlantic.

The 80-foot rocket performed as it never has before when it shot across the black sky Tuesday night after a beautiful launching.

The mission on this 19th Atlas test reportedly was another 4,000-mile trip winding up in minutes beyond the island of Fernando de Noronha far off the Brazil coast.

The three mighty engines of the missile appeared to burn furiously for more than 6½ minutes, much longer than on previous flights. The rocket skipped behind some clouds and then seemed to hang in the sky like a small star.

At first there was speculation the latest blastoff signaled another shot similar to last month's Atlas satellite. But there still was no definite report on the results of the test hours later.

On previous firings the bulky intercontinental range missile burned no longer than 3½ minutes before starting its ballistic trajectory—even the "Big A" that soared into a 35-day orbit around the globe Dec. 18.

Despite the unusual performance, the best bet still appeared to be a long range attempt. The Air Force said only that the launching was another in the research and development series.

## Tax Increase Seen In N. Y.

ALBANY, N.Y. (AP)—Gov. Nelson A. Rockefeller will ask New Yorkers to pay approximately 250 million dollars or more in additional taxes during the coming fiscal year.

The Republican governor, beginning his first term, says he needs the money to balance the state budget which will total more than two billion for the first time in history.

Rockefeller has the support of the majority leaders in the GOP-controlled Legislature.

The last budget of his predecessor, Democrat Averell Harriman, topped \$1,800,000,000. Some of the increase is required by law, chiefly for the public schools.

And I'll tell you something, he's this goal, West and Williams know of no one else who has gone as long as Tripp without sleep under minute-by-minute supervision.

What does it matter? What do you gain from watching a man stay awake?

"Medically, there is great interest in sleep deprivation," West says. "It induces a kind of mental disturbance which can be reversed. Mental health research is handicapped by the difficulty of trying to produce the disease in a laboratory for study."

## T-H Change Offered By Eisenhower

Strict Curbs On Racketeers Asked In Labor Message

By NORMAN WALKER

WASHINGTON (AP)—President Eisenhower sends to Congress today a labor message calling for strict curbs on labor racketeering and a series of changes in the Taft-Hartley law.

Some of the changes were asked by labor unions, others by employers.

An outline of Eisenhower's proposals became known after a White House briefing of Republican congressional leaders.

They are understood to parallel in some respects and go further in others than provisions in a bill already introduced by Sen. John F. Kennedy (D-Mass.).

### Would Require Reports

Both bills would require detailed reports to the government on union fund spending, with penalties for fraud and provisions to insure members' a voice in running their unions.

But the administration bill goes further both in details of its corruption curbs and in the Taft-Hartley law changes it would make. In the latter respect, Eisenhower favors lighter restrictions on secondary boycotts by unions, something the Kennedy bill does not mention. Eisenhower also wants to extend picketing bans.

From all indications a bill yet to be introduced by Sen. John McClellan (D-Ark.), whose racketeering bill has been in committee since last year, will propose even stronger curbs and penalties than either the administration or Kennedy bill.

There are two mild surprises in Eisenhower's Taft-Hartley law proposals. One would speed representation elections by the National Labor Relations Board by letting the board hold elections first and argue out technicalities later.

The other would require that no more than three members of the five-man NLRB could come from one political party. As it happens the present board has three Republicans and two Democrats.

Sen. Kennedy called the Labor subcommittee he heads into session today to begin hearings on the various proposals. Eisenhower's recommendations, as set forth in a bill to be introduced during the day by Sen. Barry Goldwater (R-Ariz.), were to be included.

The President's proposals, largely paralleling those he made last year, were reported to represent a victory within the administration for the views advanced by Secretary of Labor James P. Mitchell.

## DeMille Widow Gets No Money

LOS ANGELES (AP)—Because she has independent means, the widow of Cecil B. DeMille received nothing in his will. But her name was prominently mentioned.

The famed producer-director expressed in the document his love and admiration for Mrs. DeMille. Meantime, he left more than half of his multimillion dollar estate to their daughter, Cecilia DeMille Harper.

A fourth of DeMille's securities was left in trust for another daughter, Katherine DeMille Quinn, wife of actor Anthony Quinn; and sons Richard and John.

## Market Mixed

NEW YORK (AP)—Coppers, rubbers and selected issues rose in a mixed stock market today. Trading was active.

AWAITS EXECUTION—Aristides Diaz is comforted by a priest as he stands awaiting execution by firing squad in Oriente Province, Cuba. Bodies of others executed earlier lie along road. Diaz was member of private army of ex-Senator Rolando Masferrer. (AP Photos)

## Selection Of Space Traveler Under Way

NEW YORK (AP)—Selection of America's first human traveler is under way.

T. Keith Glennan, U.S. space chief, started a staid dinner meeting of the Institute of Aeronautical Sciences with this disclosure Tuesday night.

The new federal space agency, he said, has picked 110 rugged young Americans as candidates for the first manned satellite to orbit the earth.

They will assemble in Washington for further tests, Glennan said, and be asked to volunteer for space flight. Within three months, their ranks will be reduced to about a dozen.

"I suspect that the one who will make the flight will not know he is to do so until count-down day," he added.

He said he does not know whether this country will get a man into orbit before the Soviet Union.

"The Russians have been at it somewhat longer than we have, and it is wholly possible they will beat us into space," Glennan told newsmen later.

The 110 potential American space pioneers were not listed by name. Glennan gave these qualifications of the man who finally will be selected:

1. A university degree in physical science or engineering.
2. A graduate of an Air Force or Navy test-pilot training school with at least 1,500 flying hours.
3. Superb condition, with the physical and psychological attributes suited for space flight as determined by aero-medical scientists.
4. Younger than 40 and no taller than 5 feet 11. There are no weight restrictions.

## Gunman Takes Victim's Name After Robbery

DETROIT (AP)—Leo J. Groeck stopped for a traffic signal on his way home Tuesday night. A man pulled open the car door, got in, flashed a gun and said, "I've got to have \$50."

Groeck turned over \$50, explaining that was all he had. The bandit wrote down Groeck's name and address. He promised to return the cash when he could.

## Texas Tunes Feature Last White House Social Event

WASHINGTON (AP)—The requested it at a state dinner for Vice President Richard M. Nixon. The Eisenhowers ended their 1958-59 social season—an abbreviated version of only five state dinners—with a doubleheader on two successive nights.

A bipartisan group of 16 senators and 22 representatives, half Democrats and half Republicans, were a mong Tuesday night's guests.

Bachelor Rayburn came early with his sister Mrs. Edward Bartleson. They played it twice to make up for an unfamiliar version by Lawrence Welk's orchestra Monday night when the President re-

## Claims U.S. Should Not Be Ashamed

Khrushchev Boast Brings Statement At Press Session

By MARVIN L. ARROWSMITH

WASHINGTON (AP)—President Eisenhower said today the United States is making very remarkable progress in the ballistic missile field and has no cause for hang dog humiliation.

The President made the statement at a news conference in commenting on Soviet Premier Nikita Khrushchev's announcement Tuesday that the Soviet Union has intercontinental ballistic missiles in production.

In apparent reference to the question of whether Khrushchev was saying the Soviet Union has ICBMs in mass production, Eisenhower said he has no way of knowing just what was in Khrushchev's mind.

### Makes Wry Comment

Somewhat wryly, the President added that we seem very prone to give 100 per cent credence to statements by the Soviets if they happen to deal with our own desires.

On the other hand, Eisenhower went on, we dismiss other Soviet statements as bald-faced lies.

Without ever saying whether this country has intercontinental missiles at the production stage, Eisenhower said that the U.S. missile program is going forward as rapidly as possible under the direction of capable scientists.

Then he said very remarkably progress is being made and that the nation has no cause for any hang dog humiliation.

On the contrary, it should be a matter of pride, he said.

The President also dealt in the news conference with other matters.

POLITICS—Commenting on criticism of him at a Republican conference in Des Moines last week, Eisenhower expressed belief that most Republicans understand and support what he called his middle of the road program. He said he has been attacked from both sides so far as his moderate program is concerned. He called that natural and proper and remarked that you have to take it.

A reporter asked Eisenhower how he felt about a call by the Republican campaign chairman in Congress for him to take a more active and decisive role in bestirring what the President has termed the hibernating GOP elephant.

Eisenhower replied he believes he has made his position on party principles and programs perfectly clear in many documents and speeches the last six years.

## Judge Denies Board's Plea

ALEXANDRIA, Va. (AP)—U. S. Dist. Judge Albert V. Bryan today rejected a plea of the Arlington County School Board to delay the admission of four Negroes to a white school until next September.

The judge's order for the admission of the four to Stratford Junior High School next Monday remains in effect.

In denying the school board's petition, the judge said he did not feel there had been any showing of changed circumstances or conditions to justify him in delaying admissions.

The school board has made arrangements to enroll the Negroes if last-ditch legal maneuvers fail to win a delay. It has told pupils not to protest integrated classes and warned that any violence would bring expulsion.

## Young Disc Jockey Near Record

## 'Awakathon' Seen As Benefit To Medical Research

NEW YORK (AP)—A young, what seemed like another public, and comparatively unknown disc jockey stands today on the threshold of an unmatched medical achievement—200 sleepless hours study made before," says Dr. Louis Jolyon West, director of the University of Oklahoma Medical School. "This helping him fight off collapse, think Peter Tripp, 32, is a medical observation for a rare case. They also admire him for his driving determination, that during this great stress has kept his eyes open so long, we haven't measured. Tripp's personality has changed know him through and through.

And I'll tell you something, he's this goal, West and Williams know of no one else who has gone as long as Tripp without sleep under minute-by-minute supervision. What does it matter? What do you gain from watching a man stay awake?

"Medically, there is great interest in sleep deprivation," West says. "It induces a kind of mental disturbance which can be reversed. Mental health research is handicapped by the difficulty of trying to produce the disease in a laboratory for study."

Tripp's 200 hours—8½ days—will be up at 7:14 p.m. EST tonight. Even if he falls short of

Tripp's personality has changed know him through and through.

## Kidnaped Baby's Mother Can't Forgive Abductor

NEW YORK (UPI)—Mrs. Asuncion Ortiz, 24, was formally charged today with kidnaping infant Johnny Tavarez, apparently because she hoped to hold her common-law husband by giving him a son.

The meaning Puerto Rican woman was taken by ambulance to the Roosevelt Hospital prison ward for a physical examination immediately after the early morning booking. She complained of being ill and was spilling blood.

If convicted of kidnaping, Mrs. Ortiz can receive a sentence of 20 years to life in prison.

The 29-day-old baby's parents, Jose and Dorali, Tavarez, said they hoped Mrs. Ortiz would receive "a lot of assistance."

"But I can never forgive her for this deed she did," the 31-year-old, Dominican-born mother said. Johnny was reported getting along well at Roosevelt Hospital where he is being treated for an upper respiratory infection and a mild infection of the intestinal tract. He was expected to be well enough to be taken home next week.

Mrs. Ortiz, who confessed the abduction after her arrest early Tuesday, told authorities she decided to steal a baby to replace the stillborn child she gave birth to last Tuesday.

"It was because I lost my own baby," she said. "I had to make it up to my husband."

Mrs. Ortiz has two sons and a daughter by two previous common-law husbands.

## New Many Wear FALSE TEETH With Little Worry

Cal, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. FASTEST holds plates firmer and more comfortably. This pleasant powder has no gummy, goosy, pasty taste or feeling. Doesn't cause rashes. It's alkaline (non-acid). Checks "plate odor" (denture breath). Get FASTEST at any drug counter.

## French General Drops Dead During Ceremony

TARBES, France (AP)—Maj. Gen. Pierre Agostini, 55, died of a heart attack Tuesday as he stepped forward to decorate the French army's 1st Parachute Regiment. Agostini had commanded French troops in Morocco and was deputy to Marshal Alphonse Juin when Juin's troops fought as allies with the U.S. 5th Army in Italy in World War II.

## Driver Dies, Car Crashes

LEWISDALE, Md. (AP)—A Hyattsville automobile salesman, Royce J. Payne, 43, suffered a fatal heart attack while driving on Amherst road here yesterday. His car smashed into the front porch of a house after hitting a parked car, jumping a curb, and knocking down two small trees.

## Claims U. S.

(Continued from Page 1)

Anyone who doesn't know what he stands just hasn't read his remarks thoroughly, Eisenhower added.

In reply to another question Eisenhower said he has been asking many Republicans, as well as friends of the party, since the GOP defeat in November, just what should be done to get the party on the right road.

He added he has no plans for a formal party conference to deal with the problem, but would not object to one if leaders want it.

As for whether he has been copying Democratic New Deal programs, as some conservative Republicans contend, Eisenhower replied emphatically he has copied nothing in the world except the basic principles of Americanism. He said he has tried to apply these principles to the problems we face.

WARREN—Eisenhower said he knows of no rift between him and Chief Justice Earl Warren. With a show of irritation, he labeled as irresponsible reporting a story in the New York Herald Tribune today saying Eisenhower and Warren have drifted from once warm friendship to coolness as a result of the school integration controversy and other matters which have come before the Supreme Court.

A reporter told Eisenhower that the story, by Robert J. Donovan, pictured Warren as pained by the President's failure, in Warren's opinion, to take forceful action in enforcement of the high court's school integration rulings.

The President said he long has regarded Warren as his friend, and went on to say he knows of no personal rift of any kind.

If there were one, Eisenhower said, Warren is quite capable of telling the President about it himself.

## Virginia's Legislature Acts To Keep Barriers

RICHMOND, Va. (AP)—Virginia's legislature meets in emergency session today with pro-segregation leaders apparently set to go to almost any lengths to prevent integration of public schools.

As the Legislature gathered to hear Gov. J. Lindsay Almond's proposals for continued segregation, plans moved forward that could lead to the integration of schools in Norfolk, Charlottesville and Arlington.

The last barrier to the operation of desegregated schools in Norfolk apparently was removed late Tuesday when Federal Judge Walter E. Hoffman restrained the city council of the state's largest city from cutting off funds for all grades above the sixth as it had proposed to do Feb. 1.

Nine schools have been closed since September—six in Norfolk, two in Charlottesville and one at Front Royal. The law under which they were shut down has been thrown out by both a special three-judge Federal Court and the Virginia Supreme Court.

There were advance indications the Almond administration would make two proposals—repeal of the state's compulsory school attendance law and enactment of new laws to provide state tuition grants for private schooling of children without any reference to the racial situation.

Thousands Of Jews Will Go To Israel

TEL AVIV, Israel (AP)—Premier David Ben-Gurion today predicted that 250,000 to 300,000 Jews will come to Israel in the current immigration wave. Most of the new immigrants are coming from Romania and other east European countries.

The hearing mechanism in the human ear, compared to a scale, is sensitive enough to weigh a soap bubble.

## Executive Stricken

CHICAGO (AP)—William F. Peterson, 62, of Des Moines, assistant to the president of the Rock Island Railroad, died Tuesday, apparently of a heart attack.

## Plagued Day And Night with Bladder Discomfort?

Urinary excretion or drinking may be a source of mild, but annoying bladder irritations—making you feel restless, tense, and uncomfortable. And if restless nights, with nagging backache, headache or muscular aches and pains due to over-exercising or emotional upset, are adding to your misery—don't wait—try Doan's Pills.

Doan's Pills are 3 ways for speedy relief. 1—They have a soothing effect on bladder irritations. 2—A fast pain-relieving action on nagging backache, head aches, muscular aches and pains. 3—A wonderfully mild diuretic action thru the kidneys, tending to increase the output of the 16 miles of kidney tubes. So, get the same happy relief millions have enjoyed for over 60 years. New, large, economy size saves money. Get Doan's Pills today.

## Births

DEREMER—Mr. and Mrs. Joseph P., RD 2, Baltimore Pike, a daughter this morning in Memorial Hospital.

HAWKINS—Pic. and Mrs. Charles, a son on Monday at Potomac Valley Hospital in Keyser. The father is stationed with the Army in Germany. The mother is the former Miss Margaret Ann McCormick, daughter of Mr. and Mrs. Wilbur McCormick, of Lonaconing.

## Moon Crater Mass Called 'Blow Holes'

By DELOS SMITH  
UPI Science Editor

NEW YORK (UPI)—Two scientists reproduced theoretical moon conditions inside laboratory bottles and came up with evidence that the moon's innumerable craters are blow-holes.

What was once blown through the holes was gas trapped beneath the moon's surface, the scientists reasoned, thus giving indirect support to the Russian scientist who recently reported seeing what he took to be a volcanic eruption on the moon.

Many scientists thought the Russian had made a mistake because volcanic eruptions we know on earth require extremely high temperatures beneath the surface, and the scientific evidence that the moon is a cold moon without any heat of its own, is all but overwhelming. But the evidence from the bottles showed you can have cold volcanic eruptions.

Composed of Dust  
A. G. Gaydon and R. C. M. Learner supposed that the moon's surface is composed largely of a fine, powdery dust. There is enough evidence that that is so for some scientists to believe the earth rockets which eventually reach it, will disappear without a trace into a deep outer-layer of dust.

They supposed further that large quantities of gas were trapped under pressure beneath this outer layer. Then the scientists turned to their bottles which were partly filled with magnesium carbonate, a very light powder.

Suction was applied to draw out the air trapped in the powder. Blow holes appeared on the surface. These were photographed and when the pictures were compared to pictures of the moon's craters, the resemblance was so close it was hard to tell one set of pictures from the other.

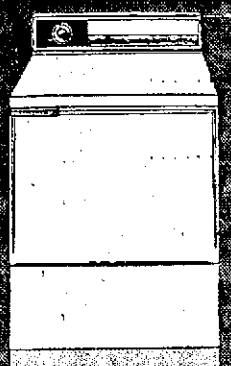

Made Own Craters  
Gaydon and Learner repeated these experiments in bottles partly filled with such dry powders as sand, salt, and magnesium oxide, any or all of which could exist on the moon. They introduced air into the bottles through tiny holes in the bottoms, so there was a continuous upward flow of air through the powder when the suction was on.

By releasing the suction suddenly, they caused blown-up hillocks of powder to collapse in the middle, reproducing even more realistic moon craters on the surface. While the suction was on, a fountain of powder rose from the blow-hole; when it was released, the suspended particles fell back, forming the steep inner slopes and the buttressed outer slopes that are typical of the moon's craters. If their theory is true, it is to be assumed that the gas trapped inside the moon as it cooled from the state of a molten ball, has just about all escaped. The moon's craters were formed untold eons ago. But the possibility remains that small amounts still are seeping to the surface, which would account for the Russian's observations.

### Brandt Coming Here

BERLIN (UPI)—West Berlin Mayor Willy Brandt and his Norwegian-born wife, Ruth, leave Feb. 5 on a tour of Canada, the United States and the Far East.

## Chicago Boy To Be First Negro Page In House Of Representatives

CHICAGO (AP)—A Chicago boy integration battle which might prove embarrassing to the House, said the committee apparently was not aware of becoming the only Negro page boy in the U.S. House of Representatives.

The youth, James A. Johnson Jr., 14, was appointed a page under the sponsorship of Rep. Barratt O'Hara, a Chicago Democrat.

O'Hara, who said there was a slight mixup over approval of the boy's appointment by the House Patronage Committee, said he had thought O'Hara and Rep. Thomas J. O'Brien, also a Chicago Democrat, were appointing the same boy, Martin J. Oberman.

O'Hara, 76 and serving his fifth term in the House, said the committee apparently was not aware he had submitted a separate nomination, which was approved.

Veteran Capitol employees said they did not recall any Negro ever having served there as a page. There is one Negro page at the Supreme Court.

"I inquired more than a year ago, when the boy's name first was mentioned to me, if there ever had been Negro pages before in the house," O'Hara said. "I did not want to push the boy into an

### Fast Drawer Ends Career After Mishap

BURBANK, Calif. (AP) — Tom Harper's fast draw career is over. Police confiscated his .22-caliber frontier pistol to hold down the bloodshed.

Harper, 21, shot himself in the leg last Sunday while practicing fast draws. Monday he resumed practice in his trailer home and accidentally shot his wife Ella.

She is in a hospital recovering from an abdominal wound.

### Heart Talk Slated

Progress in the fight against heart disease will be outlined at a meeting of the Cumberland Kiwanis Club tomorrow at noon at Central YMCA by Mrs. Ora Mae Lewis, executive secretary of the Allegheny-Garrett County Heart Association.

## 35 Dozen Eggs Scrambled In Crash Of Two Vehicles

LEONARDTOWN, Md. (AP) — Scrambled eggs—35 dozen of them. State Trooper Andrew Gohl said it was the messiest accident in St. Marys County history.

The Red Cross panel truck from Washington, driven by Bertha W. Jennings, 44, of Bethesda, Md., was taking blood to La Pata yesterday. The driver of the station wagon was Beatrice Marie Mattingly, 48, of Leonardtown.

Neither one was hurt. Trooper Gohl said the station wagon hit an icy patch and went out of control. The truck flipped upside down.

Mrs. Jennings bought the eggs because she happened to be in the country.

The blood? Police fished it out of the truck and took it on to La Plata in good time.

The accident happened a half-mile north of Mechanicsville on Maryland 5.

## Nurse's Death Probe Closed

OAKLAND, Calif. (AP) — Lt. Barbara R. Mitchell, a Navy nurse from Chicago whose burned body was found near her car near Livermore Jan. 15, took her own life, a coroner's jury held Tuesday.

The jury reached its decision after Lt. William Duff of the Alameda County sheriff's office testified Lt. Mitchell, who was unmarried, was four or five months pregnant.

The jury concluded she poured the gasoline over herself and set herself on fire.

## Mixed Up Legend In Nottingham

NOTTINGHAM, England (UPI) — Legend got all mixed up in Nottingham today.

Someone stole Robin Hood's bow and the sheriff of Nottingham is trying to get it back for him.

Robin Hood's bowless statue stands outside Nottingham Castle.

A recent government survey has shown that very few persons are "stone deaf."

### Cemetery Association Planning Improvements

A concrete block retaining wall and fence will be erected on the Summer Cemetery Improvement Association. John Womack, financial secretary of the group, announced the plans at a recent meeting of the association.

Twenty volunteer workers recently cleaned up the cemetery and were honored at a dinner. Rev. Charles H. Walden Sr., pastor of Metropolitan AME Church, was toastmaster. Mrs. Nina Yates was chairman of the dinner group.

# DID SOMEBODY MENTION GASOLINE MILEAGE?

Although we deliberately engineered improved gas mileage into the '59 Buicks, we have not made much point of it in previous advertising for THE Car. People's driving habits can get very different results even from the same car. So we are now happy to report that our plans for greater economy of operation have been very successful indeed . . . in everyday owner experience.

**Owners report excellent records**

Most owners are naturally proud of their new cars, and may sometimes overstate a little. But even allowing for that, listen to these reports from owners! A Detroit man drove his Electra 9,000 miles around the country, and reports a little over 19 miles a gallon.

A Louisiana LeSabre, with Twin Turbine Transmission, after 4,000 miles is giving its owner 17.6 miles per gallon. A St. Paul man reports 18.1. From Atlanta comes 17.5. From Pittsfield, Mass., 20. Some are even higher. Some lower. But these are typical.

**Tests confirm new economy**

Recently a very thorough set of tests was run, putting Buick LeSabre and another car of comparable size which is known for good economy, through identical tests under all sorts of driving conditions. The Buick came out best in every single test.

**How Buick mileage was improved**

It took a combination of several steps. New, more efficient Wildcat engines was one . . . compression up to 10.5, better carburetion. In the case of LeSabre there is also a new, twin-barrel economy carburetor as standard equipment. All this to get more power out of the fuel. In addition, new combinations of transmissions and rear axles put this power to work more efficiently.

**Owners also report QUALITY outstanding**

"Best-performing Buick ever!" . . . "My sixth Buick and the best I ever owned!" . . . "Much the best Buick yet!" . . . "Best operating car I've driven in thirty years" . . . Learn for yourself why this year's Buick owners are so enthusiastic. Go to your Quality Buick Dealer and see why *The Car is The Buy*.

## Mrs. T.A. Darr Hostess To Mizpah Class

Mrs. Thomas A. Darr was hostess to the Mizpah Bible Class of the First Baptist Church at a recent evening at her home, 349 Bedford Street. Mrs. James Athey was in charge of the devotional. She also read the "Ten Commandments For Class Officers" and each one was discussed. Mrs. Carl Godwin read the Scripture lesson and Mrs. Archie Prevatte closed with prayer.

Mrs. H. T. Humphreys presided at the business session and a roll call was answered with a verse of scripture beginning with the letter "I."

Reports were given by various chairmen and Mrs. Darr, personal service chairman, reported on visits made to members in the hospital. Cards are to be sent to the sick and shut-ins.

Each one was asked to contact an absent member and to make a special effort to get a new member for Sunday School.

Plans were made to have a covered dish dinner on February 20 at 6:30 p. m. at the church and have the husbands as guests.

A short business meeting and a Valentine party will follow. Mrs. Darr was appointed chairman of the dinner.

Miss Marie Williams closed with prayer. A social hour followed with Mrs. Darr serving refreshments. Others attending were Mrs. C. Kimball a guest, Mrs. Archie C. Prevatte, Mrs. Paul Bell, Mrs. Russell Wendling, Mrs. James Ruppert, Mrs. S. C. Morris, Mrs. Donald Bramble, Mrs. Woodrow Hamilton, Mrs. Paul Shanski, Miss Elizabeth McCullough, Miss Marie Williams, and Miss Sherry Hamilton.

## Talk, Reports To Mark Dinner

A talk by Dr. Abdul S. Hashim, local pediatrician, will highlight the coming Jaycee dinner meeting at 6:30 p. m. February 5, at the Cumberland Country Club. Dr. Hashim will speak on "Children, Family Life, Social Conditions and Standards of Living in his native country."

Mrs. J. William Hill will preside. Final plans and reports will be made by Mrs. Raymond Lapp Jr. and Mrs. Edward E. Eyer, co-chairmen of the Social Committee, regarding the Sweetheart Ball, to be held February 13, at the Cumberland Country Club.

Music will be provided by Happy Laughter. Anyone requesting tickets may contact Mrs. Henry Sauer at Parkview 2-0109. Mrs. Casper Taylor, Jr., and Mrs. Arthur S. Davis, Co-Chair-

## National VFW Auxiliary Head To Visit Maryland

At the meeting of Henry Hart Auxiliary, V. F. W., last night at the post home, Mrs. Catherine Wilson, presiding, announced that the National V. F. W. Auxiliary, Kansas City, will make her official visit to the Maryland Department February 2 and 3. The reception to Mrs. Myers will be held at the War Memorial Building, Baltimore.

Mrs. Chloé Reynolds, a former department president, and at present department musician, will attend from here.

A 25-year pin was presented to Mrs. Mae Whalley by Mrs. Grace Cross. The auxiliary voted donations of \$5 to the National Cancer Fund, and \$10 to the March of Dimes.

Mrs. Cinderella Smith won the prize of the evening, and Mrs. Wilson and Mrs. Charlotte Himes were named to attend the Coffee Club meeting at the Port Cumberland Hotel next Monday morning.

A social hour concluded the evening with Mrs. Wilson in charge of refreshments.

men of the Ways and Means Committee, will report on the coming Style Show and Card Party to be presented at the Shrine Club, on March 6, at 8 p. m.

A setback and 500 card party will be held in the basement of St. Anthony's Catholic Church, Ridgeley, today at 8:15 p. m. Refreshments will be served.

## Wilkinson And Taylor Team Top Field

Eleven tables were in play in the master point game played last night by the Potomac Valley Bridge Club at the Woman's Civic Club House. John R. Wilkinson and Norman Taylor topped the field and an average of 110 was scored by both north-south and east-west.

Dr. and Mrs. Paul Castello were first, north-south, with a score of 126 plus; Mrs. William Snyder and Mrs. Ralph Neve were second with a score of 124.

Mr. and Mrs. Lloyd Trimmer, third, scoring 123 plus, and Mrs. Louis Waingold and Mrs. Loraine Eisenberg were fourth with a score of 115 plus.

Other teams participating in the north-south section were A. J. Feigus and Mrs. Norman Taylor, Miss Alice Slakem and Mrs. J. J. Laughlin; Russ Minter and Mrs. Joseph Feldstein; Mrs. Morris Barnes and Mrs. Gerard Everstine; Mrs. Roger Day and Mrs. Harding Monroe; Mr. and Mrs. George Bottorf, and Harding Monroe and Mrs. Harvey Aronson.

In the east-west section, Mr. Wilkinson and Mr. Taylor had a score of 146 plus; Mrs. Russell Bortz and Thomas Hannon placed

## Gay Tunes Club Studies Beethoven

The Gay Tunes Junior Music Club met recently at the home of Sharon Gamble, LaVale. Lorn Phillips, president, opened the meeting by leading the group in the club collect and the singing of the federation hymn. After a short business meeting, the story of Beethoven, composer of the month, was given by Mrs. Kenneth Wolf, program director.

Second with a score of 134; John Moberly and Mrs. David Sigel, third with a score of 119 and Mrs. Joseph Knepp and Hugo Keller, fourth with a score of 113 plus.

Other teams playing in the east-west section were Miss Kathryn Laughlin and Mrs. Madeline Mewshaw; J. D. Paddleford and Richard Schwab; Mrs. William Frailey and Mrs. Mary Deal; Miss Julia Jackson and Mrs. Ray Goetz; Mrs. Roger Day and Mrs. Joseph Huggelstone; Mrs. Joseph Wood and Edgar Dawson and Mrs. Virginia Newnam and Dave Muller.

## Protest Made Against Proposed Dental Law

ANNAPOLIS (U-A) Cumberland technicians protested Tuesday that state dentists want to put him out of business.

In turn, the president of the Maryland State Dental Society said the technician already had been in court on a charge of violating the law.

"I'm surprised he would even appear here," Dr. G. B. Clendenin told the House Judiciary Committee.

The committee was listening to views on a bill that would generally revise the Maryland law on dentists and dental hygienists.

Robert Rice, and his associate, Alan Porter, of Cumberland were the only protesters heard.

Their complaint was against a proposal that no one would be allowed to make, alter, repair or duplicate a denture or plate without "authorization or prescription given by a registered licensed dentist."

Rice, who has been making dentures and plates for 34 years, said all of his 10,000 customers in Maryland, West Virginia, and Pennsylvania have come to him directly.

Dr. William Ryan of Allegany County told the committee he had seen many dentures made by Rice and "they haven't been up to even sub-par."

Rice retorted he had the same opinion of plates made from impressions taken by Dr. Ryan.

Committee Chairman Melvin (D-Anne Arundel) blocked efforts to bring out details of Dr. Clendenin's statement concerning Rice's court case.

Later, Del. Walsh (D-Allegany) explained briefly to the committee that the Allegany County Circuit Court had decided the present law "means that if you don't touch the patient's mouth, you are not practicing dentistry and it is legal."

Rice said he did not take impressions to manufacture plates, but that sometimes his customers took their own and he used them.

Julius S. Schindler, Cumberland attorney who represented Rice, said his client was willing to have the law amended to restrict dentists to repair or duplicate plates without authorization from registered dentists.

He also said he would favor setting up qualifications for future

# Parts Of New Subs Shape Up At Site Far From Sea

By ALTON BLAKESLEE  
Associated Press Science Writer  
SAN ANTONIO, Tex. (AP) — Here you are 150 miles from the sea.

But here part of tomorrow's new deep-diving submarines is being born.  
Here there is rarely any snow. But this is the birthplace of elec-

tronic detectors warning of hidden crevasses lurking in snow and ice. Here there are no rocket-launching pads. But scientists are learning how to prevent liquid fuels from sloshing around in rocket engines and wobbling them off course.

"Here" is the Southwest Research Institute, one of the nation's half dozen not-for-profit foundations doing research for government and industry, solving problems, seeking new products or techniques. It's an 11-year-old, close-knit organization of chemists, physicists, mathematicians, biologists, geologists, engineers, and scientists of other disciplines. They tackle a dizzying variety of projects.

Submarines can dive about 600 feet before water pressure threatens to crush their hulls. Because submariners want to go deeper, SRI scientists are designing hulls which could go thousands of feet farther. Scale models are tested in a pressurized water tank system.

Crevasse bridges over and hidden by snow have long been a deadly trap for explorers, and for military men and machines in the arctic and antarctic.

SRI scientists developed an idea, tested it in Greenland. Their crevasse detector has probes or hands which reach out far ahead of a tractor or sled, and send back electrical signals to warn of a cavity beneath the snow surface. The detector is credited with preventing accidents to scientists who explored Antarctica during the International Geophysical Year.

In rocketry, SRI teams are designing internal structures in rocket engines to prevent liquid fuels from slamming and sloshing about, creating flutter in the rocket's course. They are also making tests to learn how long solid fuels in rockets stand up before they don't fire properly. Another project is developing improved fire-fighting and fire-prevention methods, at missile launching sites.

About half of all contract work is for the government, the other for industry, explains Martin Golland, SRI director. Institute scientists helped develop an air-conditioner using gas as fuel, improving the efficiency of gas-air conditioners by 30 per cent. This promises reduced fuel bills for home and industrial installations.

Geologist William Mather helps Texas industries develop native clays and minerals for building materials and ceramics. He's also interested in microscopic studies of dusts sucked into jet plane intakes, or auto engines, or dusts and soils abraded by the treads of army tanks.

No one on the staff of 450, including 150 scientists, is sure what tomorrow's assignments might be.

APPOINTED — John H. Davis, above, a Harvard professor, has been named director of the United Nations Palestine Refugee Agency by U. N. Secretary General Dag Hammarskjöld. (AP Photos)

There are 29 extant autographs of Christopher Columbus.

## Traffic Boost In Last Year Found Slight

BALTIMORE (AP) — So you think the traffic jams grew worse and the long lines of traffic were even longer last year. Don't believe it. Conditions were little different than during 1957, the State Roads Commission said yesterday. The commission said results of a 24-hour-a-day traffic count at 31 key locations throughout Maryland during 1958 showed an increase of only nine-tenths of one per cent over 1957. However, traffic increased more than 88 per cent in the past 10 years.

## PPG Plans Addition At Works 7 Facility

Bids will be opened February 18 in Pittsburgh on an addition to Works 7 of the Pittsburgh Plate Glass Company here. Estimated to cost \$300,000, the addition will house an experimental twin polishing unit. The George F. Hazelwood Company is one of two firms which have bid on the project.

Last year 371 students from 65 countries outside the U.S. were enrolled at Syracuse University.

## SRC Publishes History Of Highways

BALTIMORE (AP) — An exhaustive history of road building in Maryland, from Indian trail to modern highway, has been published by the State Roads Commission.

SRC Chairman Robert O. Bonnell said the history, along with the agency's biennial report, resulted in a volume of 528 pages. He said 700 copies cost about \$10,000, or about \$2,000 more than the regular appropriation for the biennial report.

Bonnell said 1,000 more copies of the book have been ordered. The additional cost will be about \$1.80 a copy, he said.

Author of the history is Charles T. LeViness, director of public relations for the commission. He spent about six months in research, editing and writing.

Fire losses in the U.S. averaged \$3 million per day last year.

**OUR COUNTRY**  
The union of hearts, the union of hands and the flag of our Union forever.—Morris.

### Bipartisan Venture

THE SENATE Rackets Committee has done a substantial job in bringing to public attention the corrupt financial and other practices which unhappily seem to mar the operations of some labor unions. Wide support for the committee's continuance is to be found both in and out of Congress. But some feel its effectiveness might be damaged if its present bipartisan character should be altered and its control taken by the dominant Democratic party. Majority Leader Lyndon Johnson of Texas proposes that this be done. Certain labor leaders are said to be urging this course strongly upon the Democrats.

THE PRESENT composition of this select committee is four Democrats and four Republicans, though one GOP vacancy exists. Democrats could take over simply by filling this spot with one of their own. But the committee's chairman, Sen. John McClellan of Arkansas, is against it. He sees any change as not only lessening the group's usefulness but reflecting upon his leadership. He is far from alone in believing that inquiry into the need for labor reform should be a bipartisan venture. Sen. John F. Kennedy, co-sponsor of last year's reform bill which passed the Senate almost unanimously, thinks the issue should be removed from partisanship. Union leaders, however, are reported to feel the committee is stacked against them, and that, anyway, it should now reflect in its composition the heavily Democratic election victories.

LABOR CAN fairly ask that any investigating body not be weighed against it, but the cure for that would hardly seem to be that it be stacked in its favor. Strict impartiality and balance is the public need, and ought to be viewed as in the best long run interests of labor itself. There is as yet no broad sign among members of either party in the Senate that the McClellan committee has up to now failed to meet the proper standards of fairness, for all its conservative complexion. The trend of support would appear to be toward continuing it with the established 4-4 split of Democrats and Republicans.

### Yakity-Yak

THE FEDERAL Communications Commission reports that the number of telephones in the United States is approaching the 70 million mark—more than half the world total. This shouldn't surprise many Americans, accustomed as we are to our high standard of living. The further information that some 250 million calls are made daily over these phones won't shake up many of us, hardened as we are by astronomical figures in federal budgets and whatnot. But what may give us a little shock is the news that we take third place in the number of calls per person per year, with 480. Canada leads with 497; Sweden comes second with 491. Maybe now we can counter the old reputation of Yankee taciturnity with the charges of Canadian loquacity and Swedish volubility.

### Paddle No Cure

SINCE THE TIME of the log schoolhouse where the schoolmaster had the rod and was not shy about using it, the subject of physically chastising students has had its intermittent innings. The question was dusted off again recently by a Gallup poll, which turned up an astonishing 62 per cent of parents in favor of paddling as a disciplinary measure in the schools. We say "astonishing," and so the results of the poll are at first glance. Further thought suggests that this majority sentiment probably reflects widespread frustration caused by the rise in juvenile delinquency. While the frustration is understandable, it scarcely justifies a return to an outmoded practice which has for many years been considered a rather barbaric means of enforcing discipline. To return to the general use of paddling as a disciplinary measure would be a step backward. The discipline of children, a problem faced by every generation, cannot be handed over to the schools. The roots of discipline go back to the family. There are extreme cases, doubtless, where physical punishment by teachers is justifiable. But on the whole, behavior is better learned at the mother's knee rather than at the business end of a paddle.

### Ike Prefers Rich Men To Politicos

WASHINGTON—While Republicans were complaining at Des Moines about President Eisenhower's failure to lead his party, the President was playing bridge at his Maryland mountain retreat with his crony, George E. Allen. Allen is the Mississippian who has parlayed a few Southern jokes into a host of corporate directorships and a handsome share of this world's goods.

The Camp David bridge weekend in truth and in fact typifies the dollar-sign image which disturbs the Republicans. The President has always preferred as his personal associates men who, like Allen, are associated strictly with money-making and the heads of the great corporations. They are ready-made symbols of "big business" and "vested interests"—labels the GOP now seeks to shed.

DURING THE first Eisenhower term the White House staff achieved at least an apparent proportion between the President's work and play hours, his political and personal associates. But with his increasing need for relaxation he has spent much more time with the Allen type

### Reds Work For "Surprise Attack" Talks

WASHINGTON (NEA)—Soviet Russia is again trying to put the heat on the United States for an early resumption of the Geneva "Conference on Measures Which Might Be Helpful to Prevent Surprise Attack." It took six hours to agree on this title. Six weeks of preliminary talks on this subject were suspended Dec. 18 without much progress. A hundred and fifty experts from five western and five Communist countries took part. Chief Communist spokesman was Russia's Deputy Foreign Minister Vasily V. Kuznetsov, an English-speaking, U. S. educated steel expert rated tough and able. Head of the western delegation was William C. Foster, former undersecretary of defense, undersecretary of commerce and Marshall plan administrator. Foster led a team of 40 American military and scientific advisers who are now the experts on this new field of war prevention.

THE AMERICAN position today is that the West should not rush back into these negotiations. Many new problems of national defense and foreign policy are involved in establishing an observation and inspection system to prevent surprise attack. New decisions must be made by the Joint Chiefs of Staff, National Security Council, the President, the Congress and America's allied powers. The Russians went to Geneva with the proposal that there was only one formula for prevention of surprise attack. This was to ban all overseas bases, reduce ground forces and ban the use of atomic weapons. Early in the talks it became apparent that the Russians are really worried by the potential of the U. S. Strategic Air Force and the rearming of Germany. The Russian story is that they want to give their people the higher standard of living enjoyed by the West. The Communist countries can't do this and keep up an all-arms arms race at the same time. So they want assurance against surprise attack while they complete their seven-year plan. THIS GIVES the West an opening for a deal. In any trade of this kind, the Russians of course,

### Glancing Sideways

NEW YORK — The next time I go to a movie purportedly about Broadway and see therein a star dressing room looking like something Marie Antoinette left behind her and roughly the size of a basketball court, I am going to tell the truth about star dressing rooms or any other dressing rooms in actual Broadway theatres. They can, and frequently do, resemble either a discarded autopsy room at the morgue or a bum's tin and tar-paper shack on the down dump.

IT WAS raining the other afternoon, hard, long and relentlessly, and I was passing the stage door of the Lyceum Theatre, where Walter Slezak is starring in "The Gazebo." It seemed probable that Walter's dressing room and his wit both would be dry, so I went in shaking off water like a golden retriever, and asked if I could come in. He came out and escorted me to his room and I'll tell you about it the way he told me about it: "It's a whitewashed arrowhead between two flaking steam pipes."

MR. SLEZAK is not the tiniest of men, being both tall and girthy, the latter a valuable asset in his end of the show business. He had a shabby wooden chair at his shelf of a makeup table, and set primly against the wall to get it in the room at all was a leather lounging chair which makes him move three other things before he can get into it. I took it, which by a sort of musical chairs, gambit left him with either the concrete, un-rugged floor or his spindle chair to sit on.

"DARLING little place you have here," I said. "I must tell the Duchess of Windsor about it. She's frantic for a pied-a-terre both cozy and chic. The Waldorf is beginning to weary her." "I can't even read my music catalogue in here," he said. "And that's not much larger than a packet of pipe tobacco. I have just acquired a Mozart, by the way. Amazing item."

### Ruth Montgomery

### Glamor Girl Of Congress

WASHINGTON — The glamor-girl of the new Congress is model-tall, model-slim Judy Weiss, whose sparkling personality and chic wardrobe belie her 37 years. Brand new to the halls of Congress, the future representative from New York ran Thomas E. Dewey's headquarters at the 1948 convention in Philadelphia, and became his associate campaign manager throughout that frenetic fall when no one thought that President Truman could win.

AN ARDENT Republican who has served as delegate-at-large to all nominating conventions since 1940, Rep. Weiss headed the program planning committee which streamlined the GOP San Francisco convention in 1956. The glamorous, silver-haired beauty who won the seat vacated by newly elected Sen. Kenneth Keating confides that she "got into politics" because of her tremendous energy.

"I WAS FLAPPING around in volunteer work for women's groups," she recalls, "when a friend put me to work arranging a tea for a Republican state convention in mid '30s. Next I was money raising, and suddenly I was vice chairman in my home county."

A REPUBLICAN National committeewoman since 1943, and member of the executive committee for the past four years, the attractive former had given no thought to office seeking until last summer, when two events revolutionized her life. Her husband, after a long ill-

### Hal Boyle

### Reporter's Notebook

NEW YORK — Curbside comments of a Pavement Plato: How can life be made better for all in this woman's world we now dwell in? Well, here's an idea for a starter: Why not encourage the ladies to take up cigar smoking? In an era in which more and more value is placed on togetherness, the cigar remains one of the few symbols of sparseness. Women today talk like men, work like men, dress like men and drink like men. But very few—in this country anyway—have learned to smoke like men. So far, in their invasion of former masculine prerogatives, the cigar has defeated them. Stick a cigar in the average woman's kisser, and she doesn't know what to do with it. She looks a bit like an anteater trying to blow up a football.

IT IS DOUBTFUL if fair womanhood will ever make a real success of the equal rights movement until the Jadies master the art of striking a kitchen match on the bottom of their slacks and lighting up a cigar in confident ease. Why don't more women take up cigar smoking? Well, not for the reasons they give. They say cigars are dirty and nasty, and smell up the draperies. They say cigars taste bad—a slander if ever there was one. Many women with a connoisseur's palate for the finer joys of life have discovered this. They range from "Poker Alice," the lady gambler of the Western frontier, to poetess Amy Lowell, who was the very spirit of New England. The Italian actress, Anna Magnani, is among the noted feminine cigar smokers of today. But you will note one pertinent thing about these three ladies—they are all talented, strong-minded, decisive women. Herein may lie the real key to the mystery of why so many women avoid cigars, or openly attack them.

AT THE RISK of alienating the unenlightened addicts of other forms of nicotine, I'd like to point out the basic superiority of the cigar smoker over both the cigarette and the pipe smoker. Your typical cigarette smoker is often nervous and indecisive. Your typical pipe man is a life-beaten philosopher sending up smoke signals of futility. But your typical cigar smoker is an expansive, aggressive, forceful optimist—a man of action, forthright and decisive. I give you, for examples, U. S. Grant, Gen. George S. Patton and Winston Churchill. The man who smokes cigars is a man who can make up his mind. This, I submit, is why so few women today smoke cigars. They aren't the kind of people who really like to make up their mind. And mark, my word now—the day American women stop kidding around and really shoulder the responsibility of running the country will be the day after they all bite the end off a stogie, clamp it in their jaws and order the nearest male, "Light me, little man!" (Associated Press)

### Washington Scene

WASHINGTON — I am always on the lookout for a little variety, and the other day I found it. I interviewed two new Congressmen who are leading radically different lives in Washington, both socially and politically. One is a Democrat and comes from Texas, the other is a Republican and comes from Illinois, but they have another minor difference. One has nine children. The other is a bachelor. Washington boasts of being a city of homes, but the family man has a harder time finding one than the bachelor. Why this was so, I can't imagine. But Rep. Robert Randolph Casey, of Houston, discovered that every house in his price range had at least six too few baths and five too few bedrooms. On the other hand, Rep. Edward J. Derwinski, of Chicago, got housed with no effort. I suppose this isn't for me to say, but it seems to be a reflection upon federal housing.

PAPA Casey's kids range in age from 21 to 2, which makes the family pretty well rounded, because he is only 43, and his wife, Hazel, even younger. Bachelor Derwinski is only 32. He is 6 feet 3, and weighs 210 pounds, which further distinguishes him from Paterfamilias Casey, who is thin, almost to the point of emaciation.

THE LATTER HAS had few unworldly experiences since his transplantation to the Nation's Capital, but this can hardly be said for Bachelor Derwinski. He drove all the way here from Chicago without mishap, then took a sightseeing trip around Washington, and enjoyed a head-on crash at 3rd and K streets.

Young Mr. Derwinski describes himself as a "Very, very conservative Taft Republican," but you ought to see his automobile. It makes even the Capitol cops shudder. It is painted a garish pichald and emblazoned across it is his name, with the legend "Your Congressman thanks you for your vote."

The first day he parked it on Capitol Hill, a policeman called him and asked in a choking sob if he would mind moving it some place else. This took courage on the part of the aesthetic gendarme because he owes his job entirely to Congress, and there was some subtle indication that the car belonged to a Congressman.

PAPA CASEY FOUND himself in less turmoil than Bachelor Derwinski in another direction. The former wasn't torn by any fight over who would be his party's leader because he knew it would be fellow Texan Sam Rayburn, and nobody else. But Derwinski ran smack into the GOP leadership fight that deposed Joe Martin for Charlie Halleck. "I asked other Republican Congressmen for advice," Derwinski told me lugubriously. "I wish I hadn't. They all began by assuring me: 'I wouldn't think of telling you how to vote—';" they told me.

Rep. Derwinski told me he has practically been on the wagon since the election because he had to do much Chicago-style campaigning. He visited scores of neighborhood clubs and was given the gentle hint at each that it wouldn't hurt if he bought a few drinks. "But the worst hazard," he added, "was that the club members always wanted to buy back."

I asked how he surmounted the hazard. He replied, as if imparting some information it would be valuable to me to know: "I learned how to nurse a beer through a 15-minute speech." (King Features, Inc.)

### Looking Backward

25 YEARS AGO  
January 28, 1934  
Sunday  
KON ANNOUNCES—Dr. Thomas W. Koon today announced his candidacy for election to the office of Mayor of Cumberland which "needs more industries and they must be encouraged to locate here." He said the credit of the city must be restored and that burdens must be lifted from the taxpayers. A 25 per cent reduction in water rates is promised by Dr. Koon.  
DESCRIBES PROJECT—Rep. Jennings Randolph, of West Virginia, is the author of an article entitled "Homestead Pioneers of 1934," which appears in the current issue of Real America, a monthly publication. It describes the governments first back-to-the-land homestead project at Ardurdale in Preston County.  
SEEK DONATION—Cumberland Free Public Library directors asked the County Commissioners to appropriate \$1,700 needed to complete additional work at the Allegheny County Academy building which is being remodeled for library use.

50 YEARS AGO  
January 28, 1909  
Thursday  
CONFIRMED—The Senate confirmed the nominations of Robert Bacon to be Secretary of State and John Callan O'Laughlin as assistant secretary of state.  
TO ENLARGE SCHOOL—There is a movement afoot to enlarge Gilmore School. The one room is too small for the number of children attending, many of whom have too far to walk in the winter time. A new school house built on modern lines should be erected.  
THIEVES BUSY—Chickens are being lifted frequently these days, and fowl fanciers do not confine their operations to any particular neighborhood. Coops are raided all over town and the suburbs. Butchers complain of losing hides from their slaughter houses. These are hard times, and it is suspected that when chickens can not be had, bull skin fricassee is acceptable.

## Man Picks Up Windfall

KANSAS CITY, Mo. (AP)—Robert Wallace, 67, a machinist, has picked up \$4,628 which Circuit Court at Kalamazoo, Mich., had held for him since 1947.

Wallace, told the Kansas City Times Court Clerk Philip Hassing wrote out the check for the money which was left in a court trust fund after Wallace moved to Kansas City and his Kalamazoo home was sold under a mortgage foreclosure. The sale price was \$4,628 greater than the mortgage.

Wallace didn't know he had the money coming until last Saturday try.

### Plan Inflation Curb

RIO DE JANEIRO (UPI)—Finance Minister Lucas Lopes has announced that the government plans "radical" measures—including reduction of military spending—to curb inflation in this country.

GRANTED ASYLUM — Lee Dong Joon, 30, (above), a Communist North Korean reporter, chose freedom and defected to South Korea yesterday during a meeting of the Military Armistice Commission in the demilitarized zone. He was granted political asylum and taken to Seoul for questioning by intelligence officers.

## 'Green Bag' Might Contain 'Extras'

By GEORGE BOWEN

ANNAPOLIS (AP)—The governor's Green Bag may contain an extra pouch of appointments to State positions this time.

Gov. Tawes will have about 750 nominations to make as the incoming chief executive. But there also are 27 left over from the administration of Theodore R. McKeldin.

These were made by McKeldin since the last session of the General Assembly. During the past eight years, they would have been confirmed almost automatically by the Senate since McKeldin still held influence.

But there is a suspicion around the State House that Tawes may not like some of the appointments made by his predecessor or would just prefer to have someone of his choosing get them.

In this case, he could ask the Senate to refuse to confirm the Republican nominees and it could be expected to go along.

Tawes then would make his own nominations along with the 750 others which are due no later than Feb. 25.

Among the interim appointments subject to Senate confirmation are Alvin L. Aubine of Bethesda as a University of Maryland regent, Angelo Schiavarelli, and Mrs. Gertrude E. Morgan of Baltimore on the Board of Correction, C. Morton Goldstein, as motion picture censor.

The governor will have to submit about 630 of his other nominations to the Senate for approval and 40 of them are of state-wide importance.

He also has 130 appointments, including the influential one of chairman of the State Roads Commission, which require no confirmation.

Robert O. Bonnell, a Republican, is to be relieved as SRC chairman almost any day now.

Other top jobs which Gov. Tawes will fill without going to the Senate are bank commissioner, director of public works, insurance commissioner, public service commissioner, tax commissioner, and racing commissioner.

The racing commission term expires in D. Eldred Riehart, the state Republican chairman, so it

is a foregone conclusion he will not be reappointed.

The most sought after posts requiring Senate confirmation are commissioner of motor vehicles—now Republican James B. Monroe—Department of Tidewater fisheries, chairman of parole and probation, and superintendent of State Police.

There is reported considerable wrangling for the appointments as motor vehicle commissioner and State Police superintendent. The superintendent is Elmer F. Munshower of Frederick.

The Senate also gives token approval to trial magistrates, supervisors of election, boards of education and license commissioners in the counties. For the most part, these are picked by the county blocks from the used car lot, legislative delegations and central political committees.

### Car Thief Makes Higher Trade In

CLANTON, Ala. (UPI)—A thief apparently did not like the 1954 Oldsmobile he stole from a local dealer.

Police said he abandoned it two days after he picked it up from the used car lot, turned and took a 1956 Oldsmobile, which is still missing.

## Little Slashing Seen For Budget

ANNAPOLIS (AP) — Maryland lawmakers generally agreed today that Gov. Tawes' budget proposals are more likely to get a scalpel treatment than a hatchet job from their monetary committees.

Tawes presented to the Legislature yesterday a budget calling for the spending of \$447,869,484 in the fiscal year beginning July 1.

## Driver Gets Three-Month Term In Jail

A 48-year-old Ridgeley man was sentenced to three months in the Allegany County Jail and fined \$235 and costs this morning in Trial Magistrate Court on four motor vehicle charges.

Magistrate Morris Baron sentenced the man, Claude S. Boyer, of 84 Knobley Street, after finding him guilty of operating a motor vehicle while under the influence, reckless driving, operating without a registration card and operating without a license.

In passing sentence, Magistrate Baron noted that it marked the third time Boyer has been convicted of operating under the influence.

Donald W. Mason, assistant state's attorney, presented the state's case. Boyer entered not guilty pleas to all four charges. He was not represented by counsel.

The charges resulted from a collision last night on Maryland Avenue when Boyer's car struck a city bus.

Testimony at today's hearing revealed that Police Officer Donald Davis was driving on Maryland Avenue in his private car when the Boyer vehicle forced him off the street. After forcing the Davis car to the side, Boyer continued on before striking the bus.

Officer Elmer Shank and Officer Kenneth Henry made the arrest and testified at today's hearing.

## O Negative Blood Needed

Although all blood donors will be welcome at the Eagles Home, North Mechanic Street, next Monday from noon till 6 p. m. for the only blood collection in Allegany County this month, the local Red Cross office today issued an appeal for O Negative type donors following the exhaustion of the supply of that type at both local hospitals yesterday.

When all of the O Negative blood at Memorial Hospital had been used in an emergency case, Sacred Heart Hospital was contacted and sent its supply to the hill-top institution.

Hazardous road conditions prevented the Red Cross motor corps from going to the Johnstown Regional Blood Center for more of the needed type, but Mrs. George W. Legge, executive secretary of the local Red Cross office, contacted the Pennsylvania State Police who picked up the blood at Johnstown and brought it to the Maryland border, where Maryland State Police took it over and delivered it to the hospital.

The total amount of blood used could not be learned today, but the woman patient who received it is reported improving.

The quota for the one-shot visit of the bloodmobile here this month is 150 pints.

## First National Officers Renamed

Officers of the First National Bank were re-elected today at the annual meeting at the bank on Baltimore Street.

They are A. W. Tindal, president; Walter C. Capper, senior vice president; H. C. Landis, vice president and cashier; Ray Blouse, vice president; Hugh D. Shires, vice president and trust officer; A. A. Helmick, assistant cashier; and Hazel H. Oder, assistant cashier.

## Allegany '39 Class Committee To Meet

The reunion committee of the Class of 1939 of Allegany High School will meet Friday at 8 p. m. in the City Hall.

Robert Matthews, reunion chairman, urged all committee members to attend.

COLLECTION DAY TOMORROW

## LaVale Zone Board Loses Court Case

Work Of Rish Firm Would Intensify Designated Usage

Chief Judge Morgan C. Harris filed an opinion in Circuit Court today, reversing the LaVale Zoning Board's decision in denying the application for a permit to operate a sales and service business for heavy equipment at 926 National Highway.

The LaVale board denied the application of the Rish Equipment Company of Bluefield, W. Va., which was made last September 2. The decision was made after a hearing by the zoning agency October 31, 1958 and an opinion filed December 10, 1958.

The Rish firm had agreed to rent the premises owned by the Lucas couple and operated by Lucas for 12 years as a sales and service agency for trucks. The Rish firm agreed to pay \$375 per month for a two-year period and then have the privilege to purchase the property within that period for \$55,000.

After the Rish firm had been denied the permit, the Lucas couple took an appeal to Circuit Court from the board's ruling as the aggrieved parties. Judge Harris commented in his ruling that John P. Mullan, manager of the Rish firm, testified before the board that the company would sell and service heavy duty equipment such as pumps, air compressors, motor graders, power shovels, truck cranes and other construction equipment. Mullan further testified that repairs to much of the heavy equipment would be made "in the field," where equipment was located when it became in a state of repair.

Judge Harris said that while there are several residence properties near the Lucas property, there are also a restaurant, a service station and a dry cleaning establishment in close proximity. Judge Harris opined that the question involved is whether the proposed use of this property by the Rish Equipment Company embraces such a change in the non-conforming use permit granted to the Lucas couple as to warrant the board in refusing the application of the Rish firm.

The court cited numerous cases to support his opinion in reversing the LaVale Zoning Board. Judge Harris said the Lucas business had used the same premises in conducting a general trucking business, and had a franchise for the sale of large trucks and trailers. The Lucas firm had held themselves out as the vendors of large trailmobiles which were used for hauling of heavy construction equipment and the servicing and repairing of such vehicles and also the repairing of heavy construction equipment.

Judge Visits Site  
"The court has visited these premises and has had the advantage of observing the surrounding properties and the use of the premises as presently utilized, and has heard the testimony with regard to the intensification of the present use by the Rish Equipment Company, and while it is undoubtedly true that the use of these premises by the Rish Equipment Company will involve a much more frequent repair of construction equipment than has existed during the past 12 years, nevertheless, the court is convinced that this would simply amount to an intensification of the non-conforming use rather than an extension thereof," Judge Harris stated.

He added that it is well-settled in Maryland that an intensification is not to be construed as an extension and as such does not constitute a violation of the zoning ordinance.

"The use to which the Rish Equipment Company proposes to utilize the premises is not inconsistent in any manner with the use to which the property has been used," Judge Harris concluded.

The firm of William H. Geppert, William A. Gunter and Hugh A. McMullen, attorneys, represented the Lucas couple at the hearing. Leslie J. Clark was attorney for the LaVale Zoning Board.

## Damage Action Settlement Made

A damage suit filed in Circuit Court on behalf of a Frostburg boy struck by a car last November 7 has been settled, according to papers filed today.

The suit was brought by Larry H. Caton, 8, through his parents, Mr. and Mrs. Marshall L. Caton, 157 Center Street, Frostburg, against Joseph F. Goodwin, RD 1, Frostburg.

The boy was hit by a car driven by Goodwin on Center Street, according to the declaration in the case. The suit was settled for \$815.

William H. Geppert was counsel for the Catons while William Walsh was Goodwin's attorney.

## Firemen Check Call

Firemen from West Side station this morning answered an alarm at 205 Carroll Street.

Firemen said a small rug in the basement of the home caught fire.

B&O WORKERS HONORED—Nine employees of the B&O Railroad on the Cumberland Division were presented certificates in a ceremony recently at the B&O YMCA on the occasion of their retirement. Pictured left to right, front row, are T. J. Klauenberg, superintendent of the Cumberland Division, who presented the certificates, Abraham Fisher, 619 Baker Street; Boyd W. Hosier, 523 Fayette Street; Edward Curren, 461 Waverly Terrace and George M. Burdette, 304 Pennsylvania Avenue. Second row, left to right, are George F. Buskey, 32 Humbird Street; Harry H. Squires, 525 Franks Lane; Homer C. Ashenfelter, 114 Springdale Street; Joseph F. Martin, 520 Columbia Avenue, and Stephen Rowan, 16 Mary Street.

## Application Of Salt Keeps Highway Bare

The State Roads Commission today attributed much of the success of the road-clearing program during the recent snow storm to increased use of salt.

G. Bates Chaires, district engineer, said a check was kept on the area in front of the district office on Braddock Road during the four-inch fall and salt kept the highway from being entirely covered at any time.

Not only is more salt being used, Chaires said, but SRC crews have become more efficient at applying it to highway during snow or ice storms.

While the process is more expensive than other forms of snow removal, Chaires said it is felt the added cost is worthwhile if the public is better served and the SRC is able to get its men and equipment off the roads more quickly. In the long run, he said, it still amounts to a saving.

Chaires was questioned about why the SRC had stopped cinderling and salting certain main roads within the city limits—particularly Braddock Road.

Chaires said it was a decision made this year that the SRC would stop operations at the end of state maintenance—that is, the city line. The state had extended this service formerly although it did not have the responsibility.

The same rule applies to all other state routes leading to the city with the exception of Henderson Avenue. Henderson Avenue comes under the state system.

On Braddock, or in the other areas, however, some exception would be made in emergencies. For example, in event of a morning storm and city trucks had not arrived on Braddock, SRC crews would service the road to the traffic light on Greene Street, Chaires said.

## Television Group Seeks Channel 5

The organization which is promoting the UHF television program in the Frostburg, LaVale, Cresaptown and adjacent areas has made application for a permit from the Federal Communications Commission to receive Channel 5 via VHF and rebroadcast it on UHF by means of a translator atop Dan's Mountain.

The body will be at the Rogers Funeral Home after 2 p. m. tomorrow.

The body will be taken to the Sunnyside Church of the Brethren at 12:30 p. m. on Saturday for services at 2 p. m. Rev. Owen G. Stultz will officiate. Interment will be in Knobley Cemetery.

Guy D. O'Hara, 66, of 128 Winchester Road, who operated the (Continued on Page 14)

## Hong Kong Engineer Seeks Post With City

Chon Poy Mak of Hong Kong, China, an architect and engineer, wanted to take Cumberland's examination for assistant city engineer but his inquiry was received too late. Mak's letter dated January 20 was received by City Clerk Wallace G. Ullery this week. Deadline for Civil Service exam applicants for the position was December 31.

Mak pointed out he saw the city's advertisement in the Engineering News Record of December 4 and "offered" his services to the city. He directed the city to his American sponsor, R. E. Chambers of Houston, Tex., and referred references to his work and character to Chambers and the British resident, in North Borneo where he worked in the Public Works Department.

Registered Refugee  
"In the American consulate in Hong Kong, I have been registered as a refugee because in Canton, Red China, all my properties of lands, houses, and the large go-down which my father, hard working businessman, left to me are occupied by the communists in Red China, but due to my high education and my long residence in Hong Kong, the American consul did not give me the visa to go to the U.S.A. where I had been offered post of bridge design by the State of Iowa Highway Commission, Ames.

"With the help of my American friends, I have been granted first preferences quota immigrant status which can be extended.

"Under the rules and regulations of your state, can I file a declaration of intention to become a U.S. citizen? I am willing myself to pay the travel expense from Hong Kong to U.S.A. and to work on probation for two or six months. If you will be satisfied with my work, you will employ me. If you will not be satisfied with my work, you will not require me to supply me the travel expenses to come back to Hong Kong," Mak wrote.

Exam Held Yesterday  
Ullery in reply to Mak's letter said "Your interest in applying for this position is sincerely appreciated. We trust you will continue to pursue your efforts in obtaining an engineering position where your capabilities can be best put to work. We regret that we cannot include you among those applying for the position of assistant city engineer, but trust you will feel free to correspond if we can be of service to you in any way."

Ullery in answer to Mak's query about citizenship referred him to the U.S. Immigration and Naturalization Service.

Mak's letter included a list of projects on which he had worked and included reference to technical colleges where he had been a lecturer. They dated from January, 1920.

Also enclosed were a number of copies of references.

The assistant engineer examinations were conducted yesterday. It marked the first time examinations were conducted here and out of town for any city position.

One applicant from Ohio came here to take the examination. Arrangements were made to hold the examination in New Jersey, Kentucky and Maine.

Skating Slated At Gephart Site  
Ice skating hours today at Gephart Playground will be from 7 p. m. to 10 p. m. The Recreation Department announced.

The surface was scraped and flooded last night and is in excellent condition, according to Mrs. Eva Hogan, assistant recreation director.

Mrs. Lauren Lapp, president of the Playground Association, will supervise skating assisted by Mr. and Mrs. Edward Zuker, Mr. and Mrs. Harold Waingold and Robert Shubert.

Refreshments will be sold by the association.

## Burial Help Bill Before Legislature

State Sen. Charles M. See (R-Allegany) introduced a bill yesterday to boost funeral benefits for recipients of old age assistance from \$100 to \$150.

In another development, the City of Cumberland said it would ask the Allegany County Delegation to the General Assembly to back a proposed bill to direct the Board of County Commissioners to contribute \$22,025 annually to ward maintenance of the city's Fire Department.

Sen. See in referring to his bill said the \$150 asked is the same presently provided for needy blind persons, the bill for which was adopted in 1957. A bill to provide the same for old age recipients was not reported out of the Senate Finance Committee last year.

Yesterday, Sen. See made a direct plea for a less drastic cut in Republican representation in the Legislative Council. A bill to reduce the number of GOP members from six to two passed its second reading in the Senate yesterday.

See told the Senate Finance Committee there are 346,246 registered Republicans and 800,000 Democrats in the state.

The Allegany County Republican said the fact that the Republican legislators were small in number does not justify their being "pushed around" and suggested Democrats might better take a "big brother" attitude.

"Just because we're down," he told the Senators, there's "no use to give us the leather."

Senator See suggested that Republican representation on the Legislative Council might, as a fair compromise, be reduced to four, instead of two, giving the minority party one-fifth, instead of a tenth of the seats on the council.

He said he would try to do something when the bill goes up for its final reading.

The Fire Department fund proposal would be provided by adding the phrase "and shall pay an equal amount to the Mayor and City Council of Cumberland" to a local law providing appropriations totaling \$22,025 to volunteer fire companies of this county.

Copies of the bill are being sent to legislators from the county, county commissioners and county attorney by Mayor J. Edwin Keech.

The present law provides that funds appropriated by the county to fire departments be used for purchase, repair and maintenance of firefighting equipment or buildings. It sets forth an amount ranging from a high of \$1,772.40 to Frostburg Fire Department to a low of \$150 to Chapel Hill Hose Company and Cumberland Hose Company.

Mayor Keech pointed out the City of Cumberland pays over half of Allegany County taxes and "it is felt the same amount paid to volunteer fire companies should be paid to the city."

Woman Injured When Car Hits Icy Spot  
A woman driving alone yesterday afternoon on Route 26, about three miles south of Saxton, Pa., was injured and damages to her car amounted to \$200 when the vehicle skidded on an icy patch and then struck guard rails.

The woman, Minnie E. Cupper, 42, of RD 3, Lewistown, was admitted to Bedford Memorial Hospital for treatment of contusions of her shoulders.

Mothers March Held Over Due To Weather  
Due to bad weather the Mothers March of Dimes scheduled last night was postponed.

The drive will be held tonight in the North End and West Side areas and tomorrow from 1 to 3 p. m. in the South End section. Friday night the East Side section will be canvassed.

## Union Offers Proposal Of 'Arbitration'

PPG Will Study Suggestion, May Answer Thursday

PHILADELPHIA (UPD) — The United Glass and Ceramic Workers Union offered today to submit to arbitration all unresolved issues in its contract dispute with the Pittsburgh Plate Glass Co., which has resulted in a strike of 13,000 glass workers.

Company spokesmen said after a brief joint session with Federal Mediation Commissioner Robert Donahoe that they would study the union proposal and give an answer as quickly as possible — possibly by Thursday.

Try To End Strike

"This was a proposal predicated on settling the strike — arbitration of all of the remaining issues, based on a two-year contract," the union's International President Ralph Rieser said.

"We went into the meeting in an attempt to end the strike in the face of the company's seemingly suicidal position to force the union to accept the company terms," Rieser said.

"We offered to let a third party decide, and we will accept," the union's international president said.

The noon session followed the team of 40 union negotiators studying a company offer made Monday. The study lasted until late Tuesday night.

Cites Issues

Rieser said the company proposal "doesn't provide for conclusion of all of the issues involved." He added that originally the company made a two-year contract offer, "but two weeks ago changed it to five."

The union president said some of the proposals not included in the company's "basic issues" offer included fringe benefits, wage adjustments, seniority, the number of grievance men and adjustments of "wage inequities at the Cumberland, Md., plant where workers are 80 and 70 cents below other plants."

"There actually were at least 11 issues to be settled," Rieser said.

Negotiators were in daily sessions in Philadelphia since Jan. 7 in an attempt to end the strike which has idled 15,000 Chrysler automobile employees as a result of a glass windshield shortage.

## Coldest Honor Captured By Town Hill Mt.

The eastern half of Western Maryland state the "deep freeze" title from Garrett County for one night at least.

Last night's low point was at Town Hill Mountain east of Cumberland which recorded "zero" according to G. Bates Chaires, district engineer of the State Roads Commission here. Other temperatures recorded at SRC check points were 13-10 at Frostburg; 6 at Hancock; 7 at Hagerstown and 10 at Boonsboro.

R. E. Weber, official observer at Oakland, said the low there was 11 degrees. The SRC said Accident had a low of 13. From Frostburg west into Garrett County some fog developed.

R. R. Golden, Cumberland's official observer, said the city's low was 8 above zero.

Chaires said roads are in excellent shape in the district. In Garrett, all main roads are practically bare and side roads bare ranging from 50 per cent up. All Allegany County roads are bare, he said, adding that Washington County's main roads are bare and side roads from 75 per cent and up.

Continued cold weather is forecast tonight with a low of 12 to 20. Considerable cloudiness with a high of 35-42 is expected tomorrow. Warmer and rain is the outlook for Friday.

## Ladies Night Set By Club

The Men's Club of Centre Street Methodist Church will hold its annual ladies' night, installation of officers and anniversary observance today at 6:30 p. m. in the church hall.

Dinner will be served by Mrs. James Leader's WSCS Circle.

Rev. Carlton M. Harris, pastor, will give the invocation and devotions will be led by Lester Heinrich. Dean Hancock will provide music during the dinner and Elizabeth Murray and Carol Bean will give other musical selections. James Hosack will give the benediction.

James C. Duff, program chairman, will introduce the speaker, Mrs. Harriett Falkenstein, representing the American Petroleum Institute of Maryland, who will present "The Magic Sulfate."

Donald L. Keefe, president, will be toastmaster.

Donald G. Paulman, lay leader, will install the following new officers: Doyle W. Andrews, president; Robert Hill, vice president; Ernest Lindsay, secretary; Harry B. Williams, treasurer; and Floyd Hebb, reporter.

## Obituary

(Continued from Page 13)

Cresaptown Cleaners, died yesterday evening in Victor Cullen State Hospital.

A native of Parsons, he was a son of Mrs. Bella (Click) O'Hara and the late Joseph O'Hara. He was born March 23, 1894.

Besides his mother, he is survived by his widow, Mrs. Bessie (Rennix) O'Hara; two sons, Master Sgt. Howard H. O'Hara, stationed with the Air Force at Randolph Air Force Base, San Antonio, Texas, and Guy D. O'Hara Jr., Baker VA Center, Martinsburg; his step-father, William, McDaniel, this city; a brother, Cecil O'Hara, Parsons; four half-brothers, Okey McDaniel, this city; Owen McDaniel, and John McDaniel, both of Baltimore, and William McDaniel, of Dailey, W. Va.; a sister, Mrs. Beulah Sponaugle, Mannington, W. Va.; a daughter, Mrs. Pauline T. Hollman, Johnstown; seven grandchildren and a great grandchild.

The body will be at the Scarpelli Funeral Home tomorrow from 2 to 4 p. m. and 7 to 9 p. m.

**You can't prevent some Fires**

Fires are started by so many unpredictable hazards that absolute prevention is a desirable but unobtainable goal. That's why you carry fire insurance. Read your policy. It obligates you to prevent indisputable proof-of-loss when you take for a settlement in full after a fire!

For complete security keep an inventory of household furnishings, clothing and valuables with your insurance policy in a Safe Deposit Box in our vault... where your valuables and papers will be protected from burglary and vandalism as well as from fire. Ask us to explain our comprehensive service.

### Frostburg Legion Group To Elect Officers Monday

### Midland Fire Unit Installs New Officers

MIDLAND — Richard Hawkins Sr. was installed as president of the Midland Volunteer Fire Company following the unit's annual dinner in the fire hall.

Officiating was William Wilson, county commissioner and treasurer of the Maryland Volunteer Firemen's Association. Others assuming duties were:

Paul Cordial, vice president; Lloyd Baker, secretary; Harry Devlin, chief; Richard Hawkins Jr., assistant chief; Joseph Monahan and William Spiker, hall managers; John Blair, standing committee; and Arthur Preston, house committee.

Wilson also served as master of ceremonies and presented the following guests: Mr. and Mrs. Paul Haberlein, Mr. and Mrs. John Prichard, Alvin Rankin, Mr. and Mrs. David Kirk, Mr. and Mrs. Cronwell Zembower, Rev. and Mrs. Charles Beckley, Howard Springer, Mr. and Mrs. Francis Falkin and Mrs. Wilson.

Haberlein, sheriff of Allegany County, presented Harry Youngblood, Gorman Robinson, William Spiker, Harry Smith, Robert Turner and Joseph Monahan with deputy sheriff cards. He empowered the men to act in case of fire to prevent looting, direct traffic and keep the peace.

Chief Devlin pointed out that the company had 18 fires last year with a total attendance of \$55.

The organization has 60 members, and the average attendance at each fire was 20 firemen. Devlin said a weekly drill is held at the fire hall with 15 to 25 men present.

The organization was congratulated by the state president, Howard Springer, for its recording in training and fire fighting.

Following the installation of officers a dance was held.

### W. Md. Railway, W. Va. Assessment Dispute Reached

CHARLESTON, W. Va. (UPI)—A formal agreement was announced yesterday in a long dispute between the state of West Virginia and Western Maryland Railway over assessments of its state property for tax purposes.

The State Supreme Court approved a compromise between the Board of Public Works and the company on the amount of assessments for 1955 and 1956 and representatives of both sides said agreement also had been reached on 1957 and 1958 figures.

The compromise, as reported by United Press International Jan. 25, calls for an assessment of \$12,250,000 each for 1955 and 1956 and \$12,000,000 each for 1957 and 1958.

The board's figures for 1955-56 of \$13,000,000 and \$15,000,000 respectively had been reduced by Mineral County Circuit Court to \$9,500,000 each. This was appealed by the Tax Department to the Supreme Court. Final action had not been taken in the lower court on appeals of 1957-58 assessments.

### Keyser Class Meeting Held

KEYSER — Mrs. Banes Sunday School Class of Grace Methodist Church held its bi-monthly meeting a recent evening in the home of Mrs. Rebecca Kelley, South Main Street. Co-hostesses were Ruth Temple, Ida Ann Prysock, Beulah Ward and Beulah Constable.

Jessie Matlick, president, presided and Julia Oates was in charge of devotions which closed with prayer by Mabel Hartman. The business session consisted principally of projects for earning money. It was decided to revive the old custom of "The Galloping Tea." Proceeds will go to the church building fund.

Rebecca Homan invited the class to meet at her home in February.

Refreshments were served by the hostess. Present were Ruth Temple, Mabel Hartman, Ida Prysock, Mary Taylor, Rebecca Homan, Lottie Thayer, Grace Wilmoth, Beulah Ward, Julia Oates, Naomi Boor, Jessie Matlick, Louise Bane, Rebecca Kelley, Tencie Gill, Mattie Dropman, Margaret Pifer and a guest, Mrs. David Fyfe, Wheeling.

Hampshire County Road Work Approved

CHARLESTON, W. Va. (AP) — The U. S. Bureau of Public Roads has approved contracts for construction work awarded by the State Road Commission Tuesday on W. Va. 45 in Hampshire County.

Road Commissioner Patrick C. Grancy announced that Terra Alta Limestone Co. of Kingswood, Preston County, was awarded a contract of \$321,089 for 5.84 miles of traffic bound base and asphaltic concrete surfacing on W. Va. 45 between Forks of Cacapon and the Virginia border.

### Lonaconing VFW To Mark Anniversary

LONACONING — Alvin C. Neat Post 5280, Veterans of Foreign Wars, will observe its thirteenth anniversary Friday with a shrimp feed at 8 p. m. for members. Admission will be by 1959 membership cards.

A dance will be held Saturday night at the VFW Home. "Edna and Eddie" will provide music. Surplus food was distributed Monday in cooperation with the county program.

**Program Held**  
A ceremony marking the sixtieth anniversary of the founding of Martha Washington Chapter 10, Order of Eastern Star, was held recently in the Masonic Temple.

Mrs. Isobel Moses, worthy matron, presided. Guests included R. Edgar Bennett, LaVale, past grand patron; Mrs. Mildred Martin, Barton, grand conductress; and Mrs. Violette Johnson, Frostburg, deputy grand lecturer.

Mrs. Alice Hardegen, of Piedmont, was presented her 50-year membership certificate from the Grand Chapter and a gift from the local chapter by Mrs. Hilda Phillips, who also gave Mrs. Elizabeth Rankin a 54-year membership gift.

Mrs. Mae S. Dick, who has served the chapter as secretary for 37 years, and an officer the past 45 years, was presented a gift by Mrs. Jennie Holmes. Vocal numbers were offered by David J. Williams, worthy patron.

The secretary read the history of the chapter. A social hour followed.

**Brief Mention**  
Mr. and Mrs. Jack Lochner attended the funeral of Harry Broadwater, Grantsville.

A Bible address, "What Is This World Coming To?" by William Moore, representative of the Watchtower Society, will be presented at 3 p. m. Sunday in Kingdom Hall.

The OES Officers Club will meet tomorrow night in the Masonic Temple. Hostesses will be Norma Bosley, Isobel Moses, Thelma Inskip, Mildred Robison and Audrey Sloan.

Miss Peggy Stakem and her house guest, Janice Alexander of Hagerstown, students at Western Maryland College, are spending their mid-term vacation with Mr. and Mrs. Edward Stakem, Main Street.

The Valley High-Busters Club will meet today at 7:30 p. m. in the school.

Miss Margaret Hamilton was hostess to her bridge club. Honors were won by Mrs. Althea Stakem, Mrs. Lee Hohn and Mrs. Margaret Tennent. Others present were Mrs. Florence Yankelevitz of Cumberland, Mrs. George Eichhorn, Mrs. Viola Kelly and Mrs. Florence Hohn.

Raymond Bampton, president of Lonaconing Lions Club, will be program chairman for the Lions meeting Monday.

### Barton

BARTON — The Ladies Guild of the Presbyterian Church will sponsor a bake sale Saturday beginning at 1 p. m. in the social room of the church.

Miss Alice Lamberson returned to her home in Philadelphia, after visiting Mr. and Mrs. Maurice Lamberson.

Mrs. Sophie Llewellyn is reported improving at the home of her daughter in Lonaconing.

Mr. and Mrs. Joseph Inskip are visiting relatives in Florida.

EARN EAGLE AWARD — Mrs. Harvey E. Funk, Cresaptown, pins an Eagle Scout badge on her son, Robert, during a ceremony in Cresaptown Methodist Church. Funk is the second member of Troop 9 to receive the highest award in Boy Scouting. Looking on are Scoutmaster Delbert Lease (left) Funk's father. Other awards were presented.

### Hampshire County Schools Checked For Fire Hazards

ROMNEY — Superintendent of Schools A. Clinton Loy reports an inspection of nine of 19 schools in Hampshire County has been completed by representative of the state fire marshal's office.

A number of recommendations for eliminating fire hazards in the schools have been made, including:

Green Spring — "This is an old frame building with open stairway, oil soaked floors and no central heating with only a fair means of egress from second floor. It is therefore the recommendation of this inspector, that the building be replaced as soon as possible."

Romney Grade School — "The old grade school building is becoming more dilapidated all the time. It is getting to the place where it is a hazard to the new building and it should be removed."

Other recommendations were to enclose open stairways with fire resistant materials, replace and correct a number of wiring situations, provide clothing protection around all heating stoves, install another fire alarm system, provide a number of extra fire extinguishers and other minor repairs and adjustments.

Loy stated the Green Spring building and a number of the other things recommended were denied children of the county in a bond issue of 1955. The superintendent also said that he had, in the interest of safety for the children, asked the fire marshal to come back to the county and check the remaining ten schools.

**Meeting Scheduled**  
WESTERNPORT — Kappa Delta Bible Class of Trinity Methodist Church will meet at the home of Mrs. Vernon Frye, Maryland Avenue, Monday at 7:30 p. m.

### Presbyterian Committee Maps New Building Plans

FROSTBURG — The building committee of First United Presbyterian Church met recently with the co-chairmen, Walter Hutchins and William Prichard, presiding. The group made a report on activities in planning for the new educational building which is now under consideration for construction.

Members reported they had visited other area churches which have recently erected educational buildings. They questioned officials as to efficiency and whether they would make any suggestions for improvements in the existing structures.

This information was studied and sketches for a new educational building were made by Harold Lancaster, a member of the committee, utilizing information from the Presbyterian Board on Christian Education as to size and space needed for each pupil and future growth.

The proposed building will be 35 by 77 feet and of one story construction, with provisions that a second story may be added at a later date. The structure will have a complete basement to be utilized for recreational purposes and other uses.

Rough drafts of the building have been checked by a local architect and are now ready to be presented to the entire church membership for suggestions and approval. The group has planned tentatively to start construction in late spring.

Other members of the building committee are Mr. and Mrs. Harry Burkett, Mrs. Harold Lancaster, Mrs. Olive Alexander, Mrs. Glen Lemmert, Miss Helen Park, Ralph Rade, Mrs. Ruby Speir, Alexander Ganyu, James Langly, Earl Richardson, Francis Richardson, William Park, B. U. Smith, Robert Ewing, Harry Miller, Walter Anthony, Fred Wilson and Robert Jones.

**Bishop J. C. Howard To Speak At Keyser**  
KEYSER — Dr. J. Gordon Howard, bishop of the East Central area of the Evangelical United Brethren Church, will speak for the pre-lenten preaching mission in Keyser.

Services will be held Tuesday and Thursday, February 3 and 5, at Church of the Brethren under sponsorship of the Keyser Ministry.

Bishop Howard was president of Otterbein College before assuming his present duties. He has been active in denomination youth work.

## State Police Hearing Set

BALTIMORE (AP)—A special committee of the Maryland State Bar Assn. will begin hearing testimony Friday on alleged irregularities in the State Police department.

Hilary W. Gans, Baltimore attorney who heads the five-member committee, said "four or five" witnesses will be called on the opening day. The session will be held in Gans' Baltimore law office.

The committee was named by Judge John B. Gray, bar association president, at the request of former Gov. Theodore R. McKeldin.

The charges against the State Police originated with the Criminal Justice Commission last summer. The commission reported that three warrants charging Baltimore contractor Sidney Gappington with traffic violations went unserved for more than a year.

A subsequent investigation by a State Police board of inquiry cleared the department of any wrongdoing. However, the Criminal Justice Commission, in its own probe, severely criticized State Police practices.

LAST-MINUTE DETAILS—The Algonquin Players are shown going over last minute details for the production, "My Three Angels," to be presented tomorrow, Friday and Saturday at Carroll Hall. Curtain time for each performance is 8:15 p. m. Pictured (left to right) are Jean Warhaft, C. N. Foose Jr., Peter Boniece, Robert Boniece, Jack Heath and Sidney Storer. The play is under the direction of Chad Riley.

## Capital Improvements Pay-As-Go Plan Proposed To Check Rising Debt

ANNAPOLIS (AP)—The State Planning Commission has recommended again that Maryland put its annual capital improvements program on a partial pay-as-you-go basis to check a steadily rising State debt.

The debt, accumulated mostly since 1950, totaled \$211,799,000 as of last Dec. 31. Authority had also been granted to issue additional bonds totaling \$82,499,000.

Approximately 40 per cent of this amount was for school construction, which counties are paying for. They use the State's credit to borrow money in order to get a lower interest rate.

The other bonds which have gone for construction of State hospitals, college buildings, park acquisition and the like—are redeemed through the State property tax.

The tax rate is set automatically each year by the amount of debt required to be serviced in that year. In 1960 it will be 14.75 cents per \$100 valuation compared to 13.42 cents in the current year.

The planning commission, in a report accompanying the governor's capital improvement program yesterday did not express alarm over the amount of debt. It said the State's credit rating remains sound.

But it did reiterate that Maryland should start paying two million dollars from current funds each year for capital improvements, instead of financing the entire program through bond issues.

Gov. Tawes indicated to newsmen that he favors this principle but said he was unable to put it into effect this year because of the tight State revenue outlook.

He passed along for legislative screening the \$13,922,300 recommended by the planning commission for capital improvements in the 1960 program.

The planning commission said with the State's outstanding indebtedness at a high point and with State institutions still in "urgent need" of improvements, Maryland would do well to adopt a partial pay-as-you-go plan.

## Hubs Place Win Streak On Line At Local Gym

Unbeaten North And Fort Hill In Feature Tonight

If Fort Hill's cagers want to retain hopes of keeping the Cumberland Valley Athletic title they have the tough task of cracking the 12-game unbeaten string of North Hagerstown as the quintuple tonight on the Hilltoppers' boards.

The Hubs, who rapped the Red Raiders, 59-40, on their home boards, sport a 5-0 CVAL mark to the 4-1 standing of the locals.

With the result of last night's league encounter, South Hagerstown clobbering Allegany, 68-46, in the Hub City, it appears the Norths could sweep the rest of the schedule if not being halted by Fort Hill.

Also continued its skid last night as the Rebels, who had won only three of a dozen starts, were never in trouble against the locals as they broke away to a 13-3 first-quarter lead.

The setback was the second straight, and fourth in six league tilts for Allegany. The Campers are now 5-6 for the season. South has a 2-3 losing mark.

Reggie Keyes paced the Rebels with 15 tallies while Jerry Horton topped 13 in the losing cause.

South Hagerstown	G	F	PF	T

## Valley's 'Hot Shots' Cool LaSalle, 62-53

By JIM DAY

Times Scholarships Sports Editor

LaSalle High improved by 18 points over its first meeting with the undefeated Valley Black Knights but the locals still couldn't cope with an amazing shooting exhibition staged by the Loneconing hoopers last night in losing, 62-53, on the SS. Peter and Paul court.

Led by veteran guard George Lauder who hit on 9 of 14 shots from the field, the Black Knights rode to their 13th straight victory and fourth in as many clashes with city quintets by connecting on 50 per cent of their field goal attempts. Twenty-five times the Black Knight sharpshooters found the range in just 50 chances.

The Explorers, who controlled the backboards with 45 rebounds to the invaders' 31, had plenty of chances from the floor. They took 80 shots but most of them were hurried because of the blanket Valley defense and only 23 found their mark for a woefully weak 28.8 percentage.

Take Quarter to Warm Up  
The Black Knights, who set up their offense with methodical precision and rarely uncork a bad shot, took one quarter to get their bucket barrage underway and when it clicked the issue didn't appear to be in doubt.

The Explorers, who had entered the clash with hopes of an upset following a string of three wins in a row and five in their last six outings, got away fast and held an 8-2 lead over the charges of coach Johnny Meyers at the half-way mark of the first period.

Buckets by Carroll Wilt, who led the locals with 14 counters, and center Mike Mackert, along with Jack Bahen's pair of penalty pitches shot LaSalle on top. "Tippy" Metts, who helped warm LaSalle's defenses with his goaling from the circle, got Valley's lone goal in the first four minutes.

The Knights, who won the series opener by a lopsided 63-36, went into a full-court press and tied the game for the first time at 11-11 just before the end of the heat on a one-hander from the side by pivotman "Hank" Wimer.

The Explorers were to keep pace in the second quarter before the accuracy of the Knights started to pay dividends. Mackert's free throw made it 12-12. Bahen brought his mates even at 14-14 with his second goal of the first half and Mickey Scaletta shoved LaSalle in front, 16-14. Metts, after being fouled by Wilt, stuffed in both efforts and the Explorers never again got closer than four points of another deadlock.

The Knights started pulling away on fielders by Wimer, Lauder and Metts and held a 22-16 margin. LaSalle sliced two points off the lead at intermission and trailed, 28-24.

20 Point Third Quarter  
A 20-point outburst in the third heat by Valley, during which they hit on 9 of 15 shots, pushed them in front, 48-35, at the finish of the period. The Explorers came up with 11 tallies but couldn't chop into the lead despite the departure of Lauder who picked up his fourth personal with 2:10 remaining in the chapter.

Jim Chappel, regarded as the "unsung hero" of the Knights by coach Meyers, got a hot hand when Lauder was given a rest. He ran off eight of the Detmolders' 10 points to help stave off a spirited LaSalle rally that carried into the last period and brought the locals within seven points, 56-49, of a deadlock.

Goals by Terment, Wilt and Scaletta had sliced the edge but Lauder, reinserted into the game, hit on a fielder and, when fouled by Wilt, dropped in a free throw to build the edge to 59-49, with two minutes remaining. Metts added the final three Valley counters and Terment hit for two goals but it wasn't enough for the locals.

Lauder, adding three foul tosses in six attempts to his nine goals, was the scoring leader with 21 points while Metts, getting six of 14 from the field and six for seven penalty pitches, had 18 counters. Scaletta followed Wilt's 14 markers with a dozen points while Terment pitched in five field goals for 10 tallies.

LaSalle now has a record of seven victories and eight losses for the season. Their next clash will be with Allegany in a city game at Campobello Friday. Valley will put its perfect mark up against Northern of Accident on the Black Knights' court Friday.

## 11-Year-Old Boy Picked As Dinner Guest

An 11-year-old youngster who has been suffering from cerebral palsy since he was two will be "guest of honor" at Cumberland's Dapper Dan Club dinner Sunday evening at St. Mary's Hall.

Edward David Cassell, son of Mr. and Mrs. William Cassell, 34 Browning Street, has been selected to represent the Allegany County League for Crippled Children at the sports affair which is held annually for the benefit of the league.

A sports enthusiast, Edward will sit at the head table with nationally-known sports celebrities, as has been the custom for league representatives the past few years.

The father of the handicapped youth became permanently blind as a result of service during World War II in Iceland. He was scheduled to accompany his son to the dinner but will be unable to attend due to entering a veteran's hospital for treatment.

The elder Cassell is well known around district night spots, having been a musical entertainer for a number of years following his discharge from the service.

### Casey Hints Some Yanks 'Trade Bait'

By JACK HAND  
NEW YORK (AP)—High above the swank shops of Fifth Avenue, the New York Yankees maintain a tidy office. You get dizzy when you look down from the 29th floor. When Casey Stengel is there you get dizzy without looking out the window.

Casey was there Tuesday talking about baseball salaries, players with "bad watches" who can't tell the time at midnight, men who don't run out fly balls and others who get tired running 90 feet.

Long after the cheese cake was gone and most of the newsmen had left old Casey was going on and on.

He lined up with the front office in its salary squabble with the players and warned some of his men to improve their training habits—or else.

"I think some of them don't like it here," he said. "One of these days a big moving van will back up. One or two will get hit right on the butt."

There was more of the same on many subjects. Before the last dazed listener broke away, Casey touched on these matters:

Running to first base: "If you get tired running 90 feet you are gonna get fined. Some will get their first plaster."

Letting ball players sleep in the morning after a night game: "You don't lose games resting."

Curfew: "There has to be a certain time. The night isn't all yours."

Trades: "If you can make deals to get (Jackie) Jensen and (Gus) Triandos, get 'em. I'd like 'em back. The commissioner probably will call up and tell me I'm tampering, but two or three other managers come in here and talk about my players."

### Giardello, Jones To Meet Tonight

LOUISVILLE, Ky. (AP)—Midweights Joey Giardello and Ralph (Tiger) Jones meet in a 10-round boxing match at Freedom Hall tonight.

The bout will be televised nationally (ABC) but will be blacked out locally.

Giardello, of Brooklyn, defeated Jones of Yonkers, N. Y., in 1954 and 1957.

Giardello has won 67, lost 15 and drawn 5. He has scored 28 knockouts. Jones has 12 knockouts and a 46-24-4 record.

Fight time is 10 p. m. (EST).

### Boswell Given 'Army Salute'

NEW YORK (UPI)—Blind golfer Charley Boswell was saluted by his former Army boss Tuesday night at the New York Golf Writers' annual dinner.

Boswell who was blinded while serving as a captain with the 84th Infantry in Germany during World War II, received the Ben Hogan Trophy for making the greatest inspirational comeback in golf.

In addition to the award, Boswell also received a greeting from President Eisenhower.

Boswell's award was presented to him by Earl (Red) Blaik, another ex-soldier and the outgoing coach of the Army football team.

Knicks Trade Sparrow For Jack George

NEW YORK (UPI)—The New York Knicks have traded forward Guy Sparrow to the Philadelphia Warriors for guard Jack George in a deal forced on both clubs by their injury list, it was officially confirmed today.

### NOTICE OF ANNUAL SHAREHOLDERS MEETING

WESTERN MARYLAND BUILDING & LOAN ASSOCIATION

The Annual Shareholders Meeting will be held in the Association's Office, 60 Fashing Street, Cumberland, Maryland, Tuesday Evening, February 10th, 1959, at 7:30 P. M. for the purpose of electing a Board of Directors to serve for the ensuing year and the transaction of any other business that may properly come before the Meeting.

By Order of the Board of Directors CLEMENT C. MAY, Secretary

### Indians Snap Hawk Streak

Mt. Savage had too many Indians for Ridgeley last night, the Blackhaws having their five-game win streak clipped, 45-40, on the winners' court.

Boosting their record to 10-2, Mt. Savage spurred in the final period to outscore the invaders 14-8 and sweep their series. The game had been tied five times with the Hawks leading, 32-31, at the three-quarter mark.

Rich Lybarger had 14 points for the winners while Bill Scott dumped in 15 for Ridgeley.

### Area Baseball Coaches Invited To Bucs' Clinic

Pittsburgh Pirate manager Danny Murtaugh and his staff will conduct the Pirates' second annual baseball clinic for baseball coaches of the tri-state area on Saturday, February 7, at the Carnegie Tech gym, a short distance from Forbes Field. The opening session will start at 10:30 a. m.

This special Pirates' clinic will cover all phases of offensive and defensive play with special emphasis on instructional techniques.

Murtaugh will be assisted by Hall of Fame third baseman Pie Traynor, coach Frank Ocek, Pirate players Bob Friend, Roy Face, Dick Groat and Bill Mazeroski, scouting supervisor Rex Bowen and scouts Ray Welsh and Charlie Muse, the latter a former baseball coach at Duquesne University.

The clinic is NOT open to the public and is by invitation only. Any tri-state area coach wishing to attend the clinic must write to the Pittsburgh Pirates, Forbes Field, Pittsburgh 13, Pa., indicating that he wishes to attend, and also indicating whether or not he will want to purchase luncheon that day at the Carnegie Tech Cafeteria, so that proper accommodations may be made.

He will then receive an invitation letter from the Pirates by which he will be admitted to the clinic.

There's NO Place Like First PLACE . . . and MCINTYRE'S is the PLACE to Buy Your New . . .

**'59 CHEVY**

GET THE **NUMBER 1 DEAL**

A McIntyre Leadership Deal has to be the best to pull the rest. In '58 McIntyre sold more new cars than any other area dealer. Let us prove to you how our Value-Into-Volume policy saves more people more money, on more new Chevrolets, more days of the week . . . than any other dealer . . . anywhere!

ON THE **NUMBER 1 CAR**

Just as McIntyre leads all other area dealers . . . Chevrolet leads all other manufacturers nationally. Chevy was the best seller in '58, and with the "All New All Over Again" '59, the gap should widen with Chevy in the lead. It's McIntyre and Chevrolet hand in hand in the lead.

FROM THE **NUMBER 1 DEALER**

This year as in the past years a McIntyre Deal will give you that "EXTRA SOMETHING" that's always been associated with a McIntyre Deal. Year after year McIntyre customers receive all the extra benefits and advantages that result from an efficient automotive operation. This year discover for yourself why it pays to insist on the McIntyre Leadership Deal . . . It means savings.

# Your Horoscope

Look to the section in which your birthday comes, and find what your outlook is, according to the stars.

**For Thursday, January 28, 1959:**

**MARCH 21 to APRIL 20 (Aries):** You'll have to follow a give-and-take spirit to have any measure of success, acting-but do finally act.

**APRIL 21 to MAY 21 (Taurus):** The position of Venus now suggests emotional control. It will be well to think twice before speaking, acting.

**MAY 22 to JUNE 21 (Gemini):** Use above-unreasonable objections, but remain calm within and without. Read good suggestions. Work with tools, instruments, and new devices favored. If you are adept and careful.

**JUNE 22 to JULY 21 (Cancer):** A favorable aspect to your blood, stimulates ambition, initiative, enthusiasm. Direct their activity. Go through routine faces with a light attitude, good will. Do not be superstitious.

**JULY 22 to AUGUST 23 (Leo):** Have no doubts or fears. Start this day with fresh vigor, renewed faith, and watch the obstacles melt before your capable talents. A day for thinking AND achieving.

**AUGUST 24 to SEPTEMBER 23 (Virgo):** Orientation, overdoing to any form is a likely tendency now. Be prepared to hold all reins in sensible check. Restrain, diggly recommended.

**SEPTEMBER 24 to OCTOBER 23 (Libra):** You may find self working against time. Don't press too much or nothing will be done well. You can rely through shrewdness and accuracy, two of this sign's top virtues. Avoid arrogance.

**OCTOBER 24 to NOVEMBER 23 (Scorpio):** A tendency to go to extremes is prevalent now. Avoid it consistently. Don't scatter your energies.

**NOVEMBER 24 to DECEMBER 23 (Sagittarius):** A grand Jupiter aspect. Please be to ascertain whether you are following the best route, the wisest plans, then onward—with your innate fun and industriousness—to fresh achievements.

**DECEMBER 24 to JANUARY 23 (Capricorn):** A day for some re-considering, rechecking. Don't presume or assume without full knowledge and a careful attitude. Avoid domineering.

**JANUARY 24 to FEBRUARY 19 (Aquarius):** Uranus' favored position, like Jupiter's, should spur you onward in every worthwhile way—and there are many. Bypass the trivial; use your logic and reasoning.

**FEBRUARY 20 to MARCH 20 (Pisces):** Indecision is a likely fault now. Don't let it upset you. Think matters through clearly, and carefully and you will know how to act.

**YOU BORN TODAY:** under the outgoing, generous sign Aquarius, you are imposed upon by those who seek but forget to appreciate or even recognize your talents. You are a natural theorist, writer, artist, doctor, nurse, scientist, teacher, sailor, statesman and philosopher were born under this sign. Be decisive, once you have reached logical conclusions; don't hesitate to be different where it is constructive. Use your spare time for creative self-expression; you can always improve on the ordinary. Birthdate of William McKinley, U. S. President; Thomas Paine, author and pamphleteer; Emanuel Swedenborg, Swedish mystic, philosopher.

## Jacoby On Bridge

### Game Bid Not Always Sign-off

By OSWALD JACOBY  
Written for NEA Service

A comment that is frequently made at the bridge table is "Partner! I bid game. How could you try for a slam?"

After certain bidding sequences that comment is fully justified. Thus if the bidding goes: one heart, two hearts, four hearts; or one heart, one no-trump, four hearts—the man who bids game is saying in effect, "Partner, I have heard your bid and know that your strength is limited. I want to try for game on that basis."

North's jump to four spades with today's hand is an entirely different kind of bid. In effect it said, "I have heard your one spade response to my diamond opening and even if you have a minimum I want to play game."

South's hand was far better than a minimum one spade response. In fact it was a full opening bid in itself. Hence, South was fully justified in checking for aces and then for kings. A small slam seemed certain and a grand slam was not outside the realm of possibility.

Naturally enough, when North showed only one king South contented himself with the small slam and it was well that he did. The trump finessing was wrong and all he could make was six.

## Board Hears Welfare Unit On Ambulance

A discussion was held yesterday by the Allegany County Board of Commissioners with Miss Ethel Wilderman, acting director of the Allegany County Welfare Board, on the dispute over ambulance bills for indigent persons.

Miss Wilderman clarified one point when she told the Board of County Commissioners that her department does not pay the hospital bills of indigent persons. She said the County Welfare Department simply certifies to the State Welfare Department that a particular hospital patient had no funds to pay his hospital bill.

Fred W. Jenkins, operator of the Astor Ambulance Service, said last Friday that he thought it strange the County Welfare Department had funds to pay the hospital bills of certain indigent persons but could not pay for the ambulance which took the patients to the hospital.

The county commissioners announced January 20 that they will adhere to the stand taken in August 1956 by Gorman E. Getty, then county attorney, that the county commissioners cannot pay such ambulance fees for indigent persons.

## To Ask Tawes For Lab Fund

Gov. Tawes will be asked by Western Maryland legislators to provide funds in his supplemental budget for a branch of the Department of Research and Education in the area.

The decision was made yesterday in Annapolis as senators and delegates from Garrett, Allegany, Washington and Frederick counties met to discuss the proposal.

State Senator Charles M. See said the legislators agreed that if the funds cannot be provided through the supplemental budget, bills will be introduced simultaneously in the Senate and House under sponsorship of the four counties.

Senator See opened the meeting and Del. Fred B. Driscoll, chairman of the Allegany County Delegation, presided.

Among those attending were Dr. L. Eugene Cronin, director of the state department; Don A. Emerson, instructor in conservation and natural resources at Frostburg State Teachers College, who brought the proposal to the attention of area legislators last fall.

Sen. See told the group that the benefits from such a facility cannot be estimated and that it would provide conservation services, which this area has long needed.

KALIMPONG, Sikkim (UPI)—Communist China has failed to wipe out a two-year-old revolt in Tibet with bombs and guns and is trying to cripple it through starvation, rebel sources disclosed here.

Target of the Red action is the Khamba tribe of eastern Tibet, one of the world's fiercest fighting groups.

Falling to best or even match the Khambas in tricky mountain warfare, the Communists have resorted to indiscriminate night and day bombings of villages and temples, driving the people from their land.

Some of the rebels have fled to towns along Tibet's southern border with Nepal and the Indian protectorates of Bhutan and Sikkim. Others have taken refuge in mountain-top caves or in the jungles.

But the fight still goes on. "It's a deliberate attempt to starve out our entire race," said one refugee Khamba leader. "But alone in the last two years, Chinese Communist deaths are estimated at from 7,000 to 10,000. The Khambas began their resistance in 1956 with hit-run guerrilla tactics, isolated and disorganized. But by last summer they had refined their tactics and coordinated them in concentrated efforts against Chinese Communist troops. They claim that last year they destroyed more than 50 Red military convoys in ambushes and harassed another 50.

## End O'Season Markdowns... Everything

# PRICED for CLEARANCE
